EXPLANATION OF TABLE OF AGGREGATES.

The figures entered in this table are to be derived from those entered in the Valuation List. They should represent polls and property actually "assessed," and should include nothing which has been exempted from taxation.

The totals in Columns One, Two, Three, Six, Seven and Nine should each respectively be the sum of the figures above it in the same column.

In Column Three the number of persons assessed "On Property" should be the sum of the *totals* of Columns One and Two.

In Column Eight the amount entered should be the sum of the totals in Columns Six and Seven.

In Column Nine (except for such slight variations as may be caused by fractions) the tax "On Personal Estate" will be the tax on the total of Column Six, the tax "On Real Estate" will be the tax on the total of Column Seven, and the tax "On Polls" will be the number in Column Four, multiplied by $2.00.
