## MUNICIPAL FINANCE TERMS

APPROPRIATION: An authorization granted by the Town Meeting to make expenditures and to incur obligations for specific purposes.

AVAILABLE FUNDS: Available funds refer to other funds available for appropriation by the Town Meeting, such as Wetland Protection funds, Cemetery Lot sales and Perpetual Care Interest and old article balances returned to revenue.

OVERLAY, ALSO CALLED ALLOWANCE FOR ABATEMENTS AND EXEMPTIONS: The overlay is the amount raised by the Assessors in excess of appropriations and other charges for the purpose of creating a fund to cover tax abatements granted and avoiding fractions in the tax rate. It cannot exceed 5% of the levy.

FREE CASH: Certified each year by the Director of State Bureau of Accounts, this is the portion of the fund balance which is available for appropriation by a Vote of Town Meeting. It is not cash, but rather is the approximate total of cash and receivables less current liabilities and earmarked reserves.

TRANSFER: The authorization to use an appropriation for a different purpose; in most cases only the Town Meeting may authorize a transfer.

RESERVE FUND: This fund is established by the voters at an Annual Town Meeting only and is composed of an appropriation (not exceeding 5% of the tax levy of the preceding year). Transfers from the Reserve Fund are within the exclusive control of the Finance Committee, and are for “extraordinary or unforeseen” situations, normally emergencies.

STABILIZATION FUND: This is a special reserve for future expenditures. The aggregate amount in the fund shall not exceed, at any time, 10% of the valuation in the preceding year. Money may be voted into the fund by a two-thirds vote at Town Meeting. Money may be appropriated from the fund only by a two-thirds vote at Town Meeting for any municipal purpose.

CHERRY SHEET: An annual statement received from the State Department of Revenue detailing estimated receipts for the next fiscal year from various State Aid accounts and estimated charges payable by the assessors in setting the tax rate. Named for the cherry colored paper, which the State traditionally has printed it on.

## **PROPOSITION 2 ½ TERMS**

Chapter 59, Section 21C of the Massachusetts General Laws commonly referred to as Proposition 2 ½ (Prop. 2 ½) or the Tax Limiting Law for Cities and Towns in Massachusetts.

LEVY: The property tax levy is the revenue a Town can raise through real and personal property taxes. The property tax levy is the largest source of revenue for the Town.

LEVY CEILING: This is the maximum the levy limit can be. The ceiling equals 2.5% of the Town's full and fair cash value.

LEVY LIMIT: The Maximum the levy can be in a given year. The limit is based on the previous year's levy limit plus certain allowable increases.

LEVY LIMIT INCREASE: The levy limit automatically increases each year by 2.5% of the previous year's levy limit.

NEW GROWTH: New construction and new parcel subdivision may also increase the Town's levy limit.

OVERRIDE: A community can permanently increase its levy limit by successfully voting at a referendum to exceed the limits. A community may take this action as long as it is below the levy ceiling.

GENERAL OVERRIDE: A general override ballot question can be placed on a referendum if a majority of the Board of Selectmen vote to do so. If the ballot question is approved by a majority of the voters, the Town's levy limit is permanently increased by the amount voted at the referendum. The levy limit increase may not exceed the Town's levy ceiling. Override questions must be presented in dollar terms and specify the purpose.

DEBT EXCLUSION: This override ballot question can be placed on a referendum by a two-thirds vote of the Board of Selectmen. If a majority of the voters approve the ballot question the Town's levy limit is increased only for the amount voted at the referendum for the life of that debt only. The levy limit increase may exceed the Town's levy ceiling.

CAPITAL OUTLAY EXPENDITURE EXCLUSION: This override ballot question can be placed on a referendum by a two-thirds vote of the Board of Selectmen. If a majority of the voters approve the ballot question the additional amount for the payment of the capital project cost is added to the levy limit or levy ceiling only for the year in which the project is being undertaken.

CONTINGENT VOTES: Chapter 634 of the Acts of 1989 permits a Town Meeting to appropriate funds contingent upon passage of a referendum question (OVERRIDE). A contingent vote does not automatically result in an override referendum. An override referendum can only be called by the Board of Selectmen. If a referendum is called by the Selectmen it must take place within forty-five days of the Town Meeting vote.

## Recommended Amendments FY 2013-2018

### Fire Department

1. Fire Truck purchase in FY2015 was decreased \$500,000-\$375,000 and moved ahead to FY 2014.
2. Ambulance purchases in FY 2015 and FY 2017 are increased to \$240,000 in response to the current market.

### Schools

\$40,000,000 in FY2013 for new high school construction was deleted since the new Monomoy Regional School District is responsible for the financing. Harwich and Chatham will each be charged with an assessment rather than a direct debt.

### Public Works

1. \$ 750,000 paving and sidewalk construction were eliminated in FY2013, although maintenance of Town roads is important despite lack of funds.
2. Maintenance garage \$600,000 was moved from FY2013 to FY2014.
3. There are minor changes in vehicle replacement FY 2013-FY 2019 to conform with the department vehicle replacement plan, but most importantly, vehicle replacement has been eliminated in FY 2013, with the entire schedule moved forward one year in response to the tight economy.

### Recreation

1. In FY 2013, Long Pond Bathroom has been moved from FY 13 to FY 14 for \$100,000

### Golf

\$100,000 for VAC/kitchen renovations was moved from FY 2014 to FY 2018.

1. \$850,000 for a combined maintenance/cart storage facility was moved from FY 2014 to FY 2015

### Waterways and Harbors.

For comparison:

FY	Prior Plan	Recommended Plan
2013	\$1,735,700	\$ 255,000
2014	552,500	895,000
2015	1,594,000	570,000
2016	2,697,000	1,740,000
2017	2,028,000	2,278,000
2018	220,000	1,525,000
2019	-----	1,500,000

### **Waste Water Management**

The “place holders” of prior plans have been replaced with more realistic projections of the long-term environmental project.

1. \$250,000 for Muddy Creek culvert improvement design, in cooperation with Chatham, replaces \$1,000,000 in FY 2013.
2. \$2,000,000 for project design is recommended for FY 2014 instead of \$1,000,000 in FY2013 which is removed, plus 1,000,400 for Muddy Creek construction.
3. \$5,000,000, “place holders” are removed in FY 2014-FY 2018.
4. \$25,000,000 construction is recommended for FY 2016.
5. \$10,000,000 is recommended in FY 2016 and FY 2018 for infrastructure.

### **Water Department**

1. \$100,000 is removed from FY2015-FY2018 since no new well investigation is proposed.
2. \$1,300,000 is moved from FY 2013 to FY 2016 and increased to \$2,100,000 reflecting the bids received on Route #39 rehab and painting.

PLEASANT BAY RESOURCE MANAGEMENT PLAN AMENDMENT

ARTICLE 25 To see if the Town will vote to amend the 2008 Pleasant Bay Resource Management Plan Update developed in accordance with the Pleasant Bay Resource Management Plan adopted by the Town in 1998 and updated in 2003, by inserting after section 8.6.3 a new section, 8.6.4, and to act fully thereon. By request of the Board of Selectmen.

NOTE: The text is as printed below while the full section, with referenced tables and figures, as well as a report providing detailed background to this recommendation is on file with the Town Clerk.

#### 8.6.4 Limited Improvement Dredging to Maintain or Restore Historical Navigable Access

Under the following conditions *within the area identified in Figure 4 as the Zone of Potential Future Dredging* in the Pleasant Bay ACEC, the resource management plan indicates that a municipality may seek local, regional and state authorization to undertake improvement dredging:

1. The proposed dredging is intended to maintain or restore historical navigable access for the public and is of the minimum scale necessary to maintain that access. Historical navigable access refers to the location of navigation channels and water depth at mean low water necessary to accommodate vessel drafts characteristic of the majority of vessels traditionally moored in Pleasant Bay and its subembayments. For contextual reference, historical channel depths are provided in Table 1, and the sizes of moored vessel are provided in Table 2. Figures A, B and C show channel width at a depth of four feet or greater.
2. Shoaling and changes in tidal regime have altered traditional channels such that historical navigable access between Pleasant Bay and Chatham Harbor, between either water body and the Atlantic Ocean, or through the entrance to Bassing Harbor, is severely impeded. Severely impeded access would, for example, preclude access by the commercial fleet for safe haven of vessels, or preclude safe and reasonable access by recreational boaters.
3. Through the permitting process, the municipality has undertaken an evaluation of alternatives to improvement dredging which demonstrates that the proposed improvement dredging is the preferred feasible alternative to restore historical navigable access with regard to avoiding and minimizing impacts to natural resources.
4. A feasible plan is proposed to place the dredged material within the Pleasant Bay system in a manner that is beneficial to resources protected under local and state wetlands protection regulations.
5. Through the permitting process the municipality has undertaken an evaluation of resource impacts resulting from proposed improvement dredging and placement of dredged material, and is able to demonstrate avoidance and minimization of resource impacts and adequate mitigation for any unavoidable impacts. Resource impacts of concern include those affecting shellfish populations and habitat, finfish populations and habitat and other resources and values protected under state and local wetlands protection regulations.

The proposed project would be subject to all applicable local, regional and state regulations. During regulatory proceedings the Alliance would provide public comments based an assessment of information and materials provided with regard to items 1 through 5 above and to further describe the proposed improvement dredging project.

COUNCIL ON AGING MEMBERSHIP REDUCTION

ARTICLE 4 To see if the Town will vote to amend the Code of the Town of Harwich, General Bylaws by deleting the existing section Chapter 7, § 7-10 Planning Board and replacing it with a new § 7-10 titled "Change in the Composition of Appointed Town Agencies" as follows, and to act fully thereon:

**§ 7-10 Change in the Composition of Appointed Town Agencies**

A. Planning Board (existing language – no change)

In accordance with Section 7-3-1 of the Town Charter, the Planning Board membership is hereby reduced from nine to seven members. The first two vacancies that exist on or occur after the effective date of this bylaw shall not be filled.

**Additional proposed language:**

B. Council on Aging

In accordance with Section 7-3-1 of the Town Charter, the Council on Aging membership is hereby reduced from nine to seven members. The first two vacancies that exist on or occur after the effective date of this bylaw shall not be filled.

*Explanation: Massachusetts General Law states that a voting quorum must be established consistent with a majority of the full board, regardless of vacancies. There are several vacancies on the Council on Aging which make it difficult to establish a voting quorum and further jeopardize the Town's ability to regulate development inconsistent with the Town's by-laws. Therefore, the Council on Aging is requesting an amendment to the Town's General Bylaws to decrease the Council on Aging membership from nine to seven members. This change can be accomplished by bylaw without the need to amend the Town Charter in accordance with Section 7-3-1 of the Charter which reads:*

"7-3-1 The town meeting may, by by-law, enlarge or decrease the number of persons to serve as members of appointed town agencies established or continued under this charter but all town agencies shall consist of an odd number of voting members."

By request of the Council on Aging.
