# TOWN OF

# HARWICH

*Harwich, Massachusetts  
02645*

December 28, 2020

To the Members of the Board of Selectmen and Citizens of the Town of Harwich:

Annually, the Town of Harwich utilizes the services of an external auditor to perform, under contract, an audit of the financial records of the Municipality and the Federal single audits. Independent audits play a vital role to the Town by helping to preserve the integrity of the public finance functions and by maintaining citizens' confidence in their elected and appointed leaders.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Powers & Sullivan, LLC Certified Public Accountants, have issued an unmodified ("clean") opinion on the Town of Harwich's financial statements for the year ended June 30, 2020. The independent auditor's report is located at the front of the financial section of this report. Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

## ***Profile of the government***

The Town of Harwich, incorporated in 1694, is located on the south side of the Cape Cod peninsula, made up of seven villages, with an extensive shoreline on Nantucket Sound. It currently occupies 21 square miles and serves a population of 12,142. The Town of Harwich is empowered to levy a property tax on real and personal property located within its boundaries.

The Town of Harwich operates under the traditional Open Town Meeting form of government. Policy-making and legislative authority are vested in the Board of Selectmen consisting of five members, all of whom are elected at large. Select members serve three-year terms, with one to two members elected each year. The Board of Selectmen appoints the Town of Harwich's Town Administrator, Finance Director, Police and Fire Chiefs, the Town Administrator in turn appoints department heads.

The Town of Harwich provides a full range of services, including police and fire protection; transfer station; snow and ice removal; traffic control; on- and off-street parking; building inspections; licenses and permits; vital statistics; the construction and maintenance of highways, streets, and other infrastructure; recreational and cultural activities; library services; council on aging; and harbor services. Water distribution services are accounted for in an enterprise fund with separate Water Commissioners, the department functions as a department of the Town of Harwich and therefore has been included as an integral part of the Town of Harwich's financial statements.

At the annual town meeting a budget is adopted which typically precedes the beginning of the fiscal year on July 1, however COVID-19 coupled with the enactment of emergency measures by the Commonwealth allowed the Town to defer the Annual Town Meeting for fiscal year 2021, to September 26, 2020. The annual budget serves as the foundation for the Town of Harwich's financial planning and control. The budget is prepared by fund, function (e.g., public safety), and department (e.g., police). Department heads may transfer resources within a department. Transfers between departments, however, need special approval from the governing council.

### ***Local economy***

Harwich was settled around 1665, and incorporated in 1694. Its early economy included agriculture and maritime industries and its history has included boom and bust cycles from the earliest days of the community.

When the whaling industry collapsed with the discovery of oil, the community's emphasis shifted to cod fishing. By 1802, 15 to 20 ships were shore fishing and another four ships were cod fishing in Newfoundland and Labrador, and by 1851, there were 48 ships employing 577 men and bringing in thousands of tons of cod and mackerel. The eventual decline of the fishing industry in Harwich, by the latter part of the 19th century, was caused by increases in the size of ships which eventually outstripped the shallow port's ability to house them. Residents turned to the development of cranberry bogs and resorts for summer visitors, working side-by-side with Portuguese immigrants. The first resort hotel opened in 1880 and both the cranberry and the tourist industries remain substantial parts of Harwich's economy in the present.

The Town of Harwich is located approximately 80 miles from the city of Boston. The Town of Harwich is headquarters for many medical, technology, hospitality businesses, and functions as a major regional shopping center for the surrounding communities. Major industries located within the government's boundaries, or in close proximity, include medical facilities, manufacturers of computer hardware and software, retail stores, and several financial institutions and insurance companies. The two regional school districts and Town of Harwich also have a significant economic presence; employing in total more than 800 teachers, professionals, and support staff.

Because of its location in a region with a varied economic base and prior to COVID-19, unemployment has been relatively stable. During the past ten years, the unemployment rate fell from an initial high of 10.2 percent (2009) to a decade low of 4.3 percent for the 2019 fiscal year. When the Governor declared a state of emergency on March 10, 2020, businesses shuttered ranging from retail to construction causing unemployment rates to increase substantially, the most recent unemployment rate as of September 30, 2020 was 9.2 percent.

Median household incomes within the Town of Harwich are slightly greater than those for the county and slightly lower than the state as a whole. According to the five year average (2014 – 2018) estimate, the government's median household income was \$75,352, the county's was \$70,621, while the state's was \$77,338. Housing prices in the vicinity of the Town of Harwich continue to remain strong boasting an overall 6% increase in FY 20, effectively doubling the results in a little as two years. At the end of the second quarter of 2020, the median value of a single family home in the vicinity of the Town of Harwich was \$413,800. Due to COVID-19 the Town experienced a surge of full time residents ranging in new residential home sales to conversion of summer vacation homes for full time residency. The regional high school's enrollment increased 8% largely due to the change in full time residency for secondary homeowners.

The Town's credit rating was upgraded in May 2019 to AAA stable rating by Standard & Poor's. The rating reflects Harwich's consecutive years of positive operating results leading to very strong reserves stemming from increased operating revenue, which is in turn based on its favorable location along southeast Cape Cod with high-end development and redevelopment. Standard & Poor's highlighted numerous areas of strength from the town's management and budgetary performance to a strong liquidity position with appropriate management policies and practices.

The Town has not entered the bond market since the emergency order was enacted due to the onset of the corona virus. While the Town received a stable rating by Standard & Poor's that may or may not change due to the unprecedented circumstances in 2020 and those that may present themselves in the future.

Over the past three years, the government has experienced a period of significant economic growth and investment. More than \$19.8 million in new commercial, mixed use and residential development has been completed or is in various phases of development throughout the town. This development, the presence of retail and service industries, and the presence of recreational, educational and health facilities has even further strengthened the Town of Harwich's already strong economic base.

While economic growth remains strong, the pandemic caused local businesses to reinvent themselves through physical distancing barriers, social distancing imposed regulations to creating an online presence. These important measures allowed most establishments the opportunity to serve the public in a safe manner preventing the spread of infections. Unfortunately, as the weather cools during the fall and winter months, some tourism and recreational firms may find it too difficult to remain open when the summer season ends. Thus, those who are typically open throughout the year may be forced to close temporarily.

Harwich's small town character, extensive shoreline, rich historical connection to the sea, and rural nature have continued to lure visitors over the years – some who arrive for extended periods in the summer, others who have decided to purchase second homes, and those searching for a place to retire. Like most communities on the Cape, living in Harwich is expensive. While house prices declined somewhat since the recession, the market has been rebounding and values are approaching pre-recession levels with the median single-family house priced at \$413,800; still out of reach for many year-round residents. While Harwich has been evolving into more of a year-round community, its economy continues to depend on second-home owners and summer visitors. Seasonal employment--such as retail trade, accommodations, and food services--accounts for a large portion of the local employment base.

The Town is heavily reliant on real estate taxes as the major funding source for town operations. In fiscal year 2020 the Town collected 97.8% of estimated real estate tax collections slightly ahead of the year prior at 97.5%. For fiscal year 2021 the Town has further reduced estimates for local receipts. The largest reductions coming from various excise taxes and fees for the use of recreational facilities.

The extension of a ban on J-1 and H-2B visas left this resort community with further challenges. The inability to open indoor dining for an extended period, while reeling from total recent shutdowns, left business owners and managers with limited resources that were already strained. The Town has worked closely with local businesses to provide information and open communication avenues to support and reduce, to the extent possible, the ongoing effects of the pandemic.

On March 27, 2020, the President of the United States signed into law the federal Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"). In conjunction with three other pieces of federal legislation adopted to address the COVID-19 pandemic, the CARES Act created or expanded over 100 federal funding opportunities for state and local governments. The Town of Harwich is the recipient of CARES Act relief, FEMA funding, and Medicaid funding for eligible expenses to combat the unanticipated costs as a result of the public health emergency.

Most notably, the CARES Act created the federal Coronavirus Relief Fund administered by the US Department of the Treasury with oversight provided by the US Treasury Office of Inspector General. The federal CARES Act relief included \$150 billion for state and local governments allocated on a per capita basis. The Commonwealth of Massachusetts received approximately \$2.67 billion, with approximately \$1.069 million provided directly to the Town of Harwich. These funds have been critical to mitigating the town's costs of the COVID-19 response and have, in part, made it possible to sustain services to the residents which include feeding programs for the Council on Aging's targeted population, recreation enforcement personnel to administer safety protocols and funding to support emergency operations.

The Town of Harwich is fortunate to have a number of local and regional housing agencies and organizations involved in providing affordable housing. The Harwich Housing Authority owns and manages 20 units of subsidized housing and partnered with the Community Development Partnership on the Main Street Extension/Thankful Chases Pathway project with another 12 units. It is also working with the Town on managing a number of local initiatives.

At the Annual Town Meeting of 2018 voters approved the declaration of the Harwich Affordable Housing Trust. The purpose of the trust is to provide for the preservation and creation of affordable housing in the town of Harwich for the benefit of low and moderate income households. Annual Town Meeting of 2019 authorized the transfer of five parcels of land to the care, custody and control of the Trust for affordable housing. The Town of Harwich also has experience in working with non-profit housing providers such as the Harwich Ecumenical Council on Housing (HECH), Habitat for Humanity of Cape Cod, the Community Development Partnership (CDP), and Housing Assistance Corporation (HAC). The Board of Selectmen are committed to aggressively pursue the creation of affordable and workforce housing.

It will be important for the Town to continue to establish vital partnerships with developers, for profit and non-profit, and build its capacity to promote new affordable units by aggressively reaching out for necessary technical and financial resources in addition to securing the essential political support for new housing initiatives.

### ***Long-term financial planning and major initiatives***

Unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) in the general fund at year end was 10 percent of total general fund revenues; down 1 percent from the prior fiscal year. In the spring of 2020, the Town enacted measures to immediately reduce operating expenses, delay capital spending and freeze personnel hiring; these were structural budget adjustments necessary to protect the fiscal stability of Harwich. The onset and severity of the virus caused the Town to further reduce general revenue attributed to tourism and recreational activities. It is estimated that out of state tourists as well as limited leisure-based activities for Massachusetts residents will account for a 10% reduction in local receipts which required further budget reductions in fiscal year 2021. On September 26, 2020 residents supported use of budget stabilization funds totaling just under \$575,000. Addressing a significant structural budget deficit, as well as future uncertainty, these funds will be used to balance the fiscal year 2021 operating budget. Replenishment of these funds is a fiscal year 2022 priority. The town remains committed to building healthy and consistent stabilization and OPEB reserves to support current and future liabilities while providing for future budgetary flexibility.

By charter, the Town of Harwich maintains a seven-year Capital Improvement Program which serves as its planning document to ensure that its facilities, equipment, and infrastructure are well maintained and operating in peak condition. Under the guidance of the Capital Outlay Committee, this process gives the Town of Harwich the ability to plan for its capital needs and allocate short- and long-term resources appropriately. As part of this process, the government identifies and quantifies the operational costs associated with its capital projects and budgets resources accordingly. The fiscal year 2021-2027 Capital Improvement Plan was greatly reduced as a result of the pandemic. The current plan anticipates nearly \$85 million in capital projects. Included in this \$85 million is \$25.6 million for necessary roadway improvements, \$40.7 million for public wastewater design and construction, \$7 million for water system upgrades and \$5 million for harbor capital improvements. The remainder of the program will finance improvements to the government's parks, preservation of properties and bodies of water, equipment and technology.

### ***Relevant financial policies***

The Town of Harwich has adopted a comprehensive set of financial policies. Policies amid solid financial procedures include management's conservative budget assumptions and regular monitoring of budget performance with monthly reports on budget-to-actual results to the board of selectman and finance committee. The town's free cash policy outlines reserves, free cash, and stabilization funds with the goal of maintaining no

less than 7%–8% of general fund expenditures in reserve. The town exceeded this goal at the close of fiscal 2020. The town also maintains a five-year budget forecast, which is also updated annually.

Strict adherence to the formal investment-management policy, which mirrors commonwealth guidelines is an indicator of the comprehensive financial structure of the government. The town maintains a formal debt-management policy that limits general fund debt service to 10%-12% of expenditures.

### ***Awards and Acknowledgements***

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Harwich for its comprehensive annual financial report (CAFR) for the year ended June 30, 2019. This was the third year that the Town submitted a CAFR to the GFOA. In order to receive this prestigious award, a government had to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of the Finance Department. I wish to thank all government departments for their assistance in providing the data necessary to prepare this report. Credit also is due to the Board of Selectmen for their unfailing support for maintaining the highest standards of professionalism in the management of the Town of Harwich's finances.

Respectfully submitted,

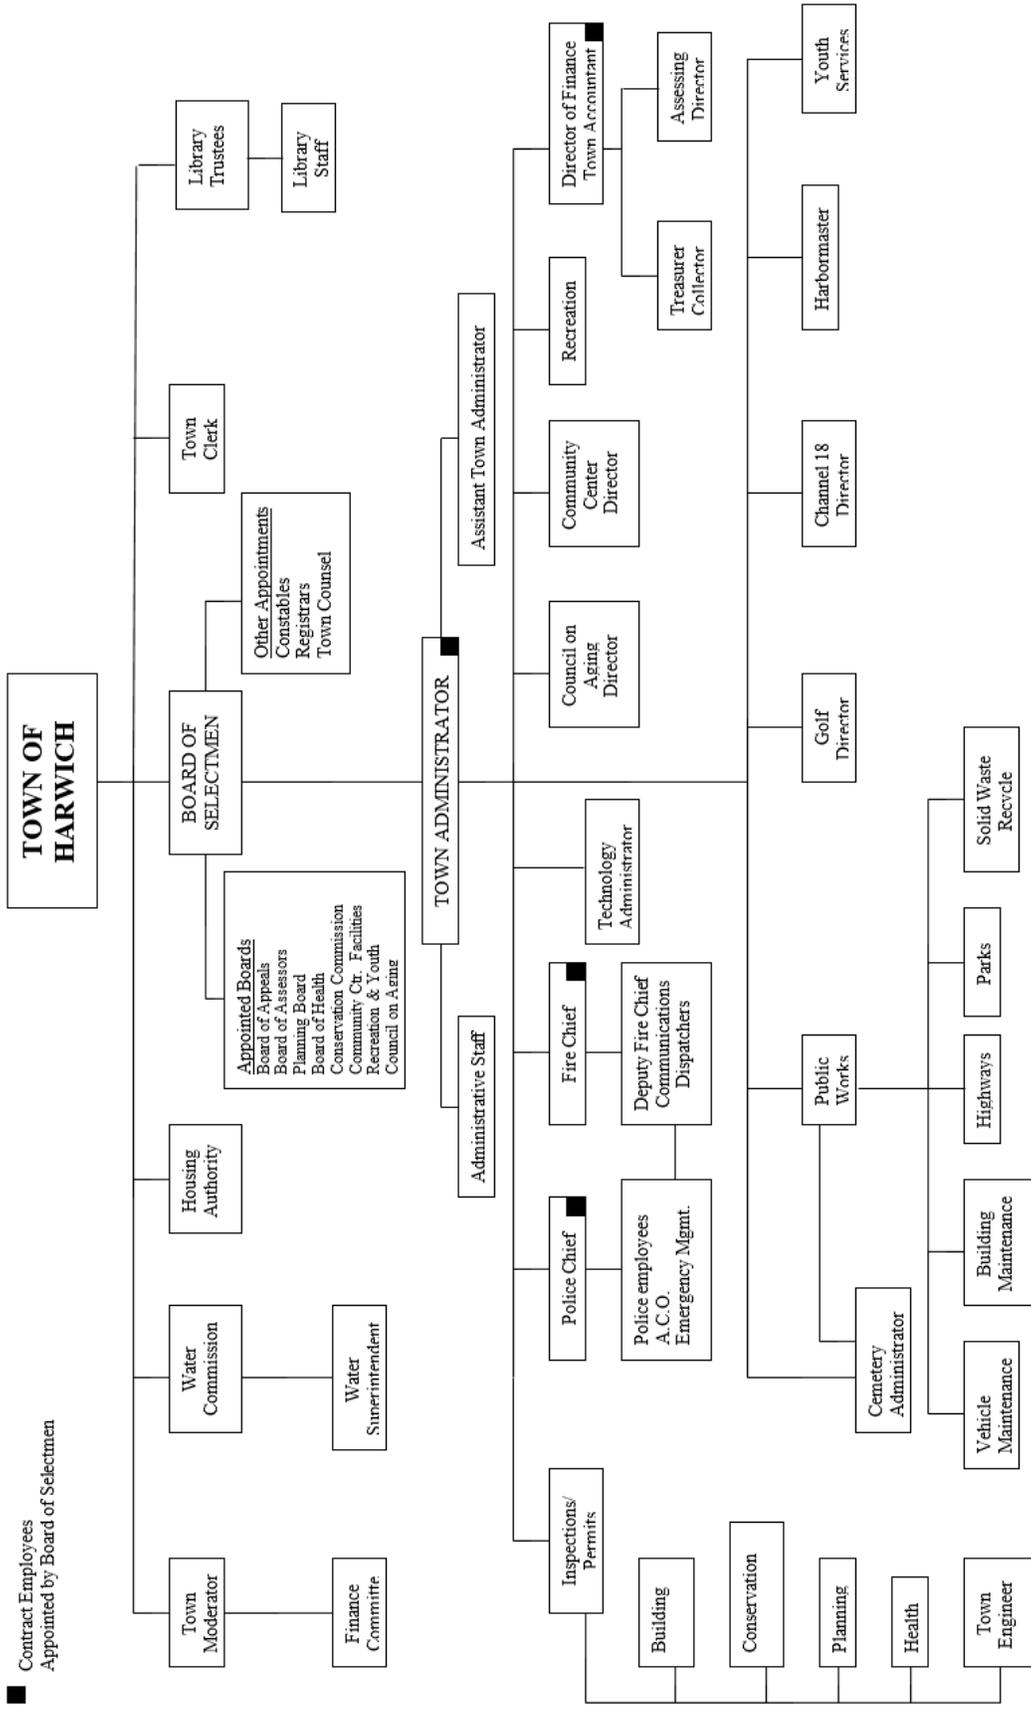

A handwritten signature in blue ink that reads "Carol Coppola". The signature is written in a cursive, flowing style.

## Independent Auditor's Report

To the Honorable Board of Selectmen  
Town of Harwich, Massachusetts

## Report of the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Harwich, Massachusetts, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Harwich, Massachusetts, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Harwich, Massachusetts' basic financial statements. The introductory section, combining statements, individual fund statements and statistical section, as listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements, as listed in the table of contents, are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2020, on our consideration of the Town of Harwich, Massachusetts' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Harwich, Massachusetts' internal control over financial reporting and compliance.

December 28, 2020

# ***Management's Discussion and Analysis***

## Management's Discussion and Analysis

As management of the Town of Harwich, we offer readers of these financial statements this narrative overview and analysis of the financial activities for the year ended June 30, 2020. The Town complies with financial reporting requirements issued by the Governmental Accounting Standards Board (GASB). Management's discussion and analysis is part of these requirements.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the Town of Harwich's basic financial statements. These basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of finances, in a manner similar to private-sector business.

The *statement of net position* presents information on all assets and liabilities, and deferred inflows/outflows of resources, with the difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities include general government, public safety, education, public works, human services, culture and recreation, community preservation, COVID-19, and interest. The business-type activities include the activities of the municipal water and wastewater departments.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town of Harwich adopts an annual appropriated budget for its general fund and community preservation fund. Budgetary comparison schedules have been provided as required supplementary information for the general fund and the community preservation fund to demonstrate budgetary compliance.

**Proprietary funds.** The Town maintains one type of proprietary fund.

Enterprise funds are used to report the same functions as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for its municipal water and wastewater departments.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for water and wastewater operations, each of which are considered major funds of the Town.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Town maintains three different types of fiduciary funds. The Other Postemployment Benefit Trust Fund is used to report resources held in trust for healthcare benefits for retirees and beneficiaries. The Private purpose trust fund is used to report the Town's scholarship funds. The Agency fund reports resources held by the Town in a custodial capacity for individuals, private organizations and other governments. The Town's agency funds are primarily used to account for police and fire details.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Harwich's government-wide assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$31.2 million at the end of 2020. The Town's total net position increased by \$1.8 million during 2020.

Comparative analysis of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, expenses and transfers of the governmental and business-type activities are discussed herein.

### **Governmental Activities**

The results of operations of the governmental activities are discussed in the following paragraphs and tables. Net position of \$60.4 million reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the investment in its capital assets is reported net of its related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the governmental activities net position, \$7.1 million, represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* is a

deficit of \$46.8 million. The deficit is primarily the result of the recognition of net pension liability of \$32.1 million along with the net other postemployment benefits liability of \$39.4 million. These are long-term unfunded liabilities that will not require significant short-term resources.

The governmental activities net position increased by \$1.9 million during the current year. Key reasons for this increase included the receipt of \$1.7 million in capital grants and better than expected budgetary results, offset with a \$1.9 million change in deferred inflows related to the net pension liability.

<b>Total net position.....</b>	<b>\$ 20,721,676</b>	<b>\$ 18,825,532</b>

Beginning net position for governmental activities has been restated to reflect a change in the measurement date for the Town's net OPEB liability. Accordingly, previously reported net position of \$21,180,869 has been restated to \$18,825,532 (see Note 18 for additional information.)

In July of 2019, a tornado touched down in Harwich causing damage and power outages throughout the Town. The National Weather Service declared that the maximum wind speed for the tornado was 110 mph, which equates to a strong EF1 tornado. A state of emergency was declared for the Town, and the Town was provided with \$1.2 million in state funds to reimburse the Town for tornado damage. The revenue and expenses relating to the tornado are reported as an extraordinary item.

The Town's largest revenue source is real estate and personal property taxes, accounting for 73% of governmental revenue for the Town. The second largest category, charges for services, account for 14% of governmental revenue. This category includes, ambulance fees, permits, trash fees, dockage, and all golf related fees.

The capital grants increase relates to additional funding from state highway grants and the community preservation fund state match.

Approximately 42% of the Town's expenses relate to education. Education expenses represent the Town's assessments paid to the Monomoy Regional School District and the Cape Cod Regional Technical High School.

**Business-type Activities**

The results of operations for the business-type activities are discussed in the following paragraphs and tables.

For the Town's business-type activities, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$10.5 million at the close of 2020. Of this amount, \$12.4 million is net investment in capital assets, and the remaining balance of *unrestricted net position* is a deficit of \$1.9 million. The deficit is primarily the result of the recognition of net pension liability of \$2.3 million along with the net other postemployment benefits liability of \$2.8 million. These are long-term unfunded liabilities that will not require significant short-term resources.

	2020	2019 (As Restated)
<b>Assets:</b>

<b>Total net position.....</b>	<b>\$ 10,488,490</b>	<b>\$ 10,557,679</b>

There was a decrease of \$271,000 in net position related to the Water Department's operations during the year, compared with a \$889,000 decrease in the prior year. Operating revenues were consistent, at approximately \$4.5 million. Expenses decreased by approximately \$640,000. Expenses include the impact of changes to the long-term OPEB and pension liabilities.

There was a \$202,000 increase in the Wastewater Department's operations. This was mainly due to a \$225,000 transfer in from the general fund. This is only the second year that the Town has reported the Wastewater Department's operations as a business-type activity. The long-term goal for the fund will be to fund the debt-service on wastewater infrastructure. The Town is continuing to budget this activity within the general fund.

Beginning net position for business-type activities has been restated to reflect a change in the measurement date for the Town's net OPEB liability. Accordingly, previously reported net position of \$10,726,382 has been restated to \$10,557,679 (see Note 18 for additional information.)

### ***Financial Analysis of the Government's Funds***

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the year.

As of the end of the current year, governmental funds reported combined ending fund balances of \$15.9 million, a decrease of \$8.3 million from the prior year.

The general fund is the chief operating fund. At the end of the current year, unassigned fund balance of the general fund totaled \$11.6 million, while total fund balance is \$13.7 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 16.6% of total general fund expenditures, while total fund balance represents 19.7% of that same amount.

The general fund increased by \$2.3 million in 2020. This was the combined result of a budgetary surplus of \$1.5 million in the general fund, and an increase in the Town's stabilization fund of \$794,000, which is reported within the general fund in the fund based financial statements in accordance with generally accepted accounting principles.

The Community Preservation Act fund had a fund balance at June 30, 2020, of \$5 million. These funds are attributable to the Town's acceptance of the Community Preservation Act, which allows the Town to impose a surcharge on property taxes and to receive matching state funds for specified uses related to the acquisition, creation, preservation and support of open space, historic resources, land for recreational use and community housing. The Community Preservation Act's fund balance increased \$81,000 in 2020. This was the net result of \$1.5 million in taxes, \$401,000 in state grants and \$66,000 in investment income, offset by expenditures on community preservation projects, a transfer out for debt service payments, and a transfer to fund the Town's new affordable housing trust fund.

The Town capital fund reported a year end deficit fund balance of \$9.4 million, a decrease of \$11.7 million from the prior year. Fiscal year 2020 expenditures of \$12.1 million related to road maintenance and fire station renovations. Projects have been temporarily funded with short term bond anticipation notes totaling \$10.5 million. The fund will be in a deficit until the Town permanently finances the projects.

### ***General Fund Budgetary Highlights***

The original general fund budget included \$68.3 million in estimated revenues and transfers in and \$73.1 million in expenditures and transfers out with the difference consisting of prior year encumbrances included in the current year original budget and the use of available funds to fund the current year budget. The \$845,000 increase from the original budget to the final amended budget was the Town's state payment for tornado damage. The Town increased the general fund budget and budgeted intergovernmental revenues.

General Fund revenues are approximately \$461,000 more than budgeted. The largest areas of the surplus were in other intergovernmental revenues and hotel/motel taxes.

General fund expenditures and encumbrances were approximately \$3.7 million less than budgeted. Key components of this surplus include \$547,000 in police, \$413,000 in fire, \$678,000 in highway, \$372,000 in golf, \$409,000 in debt service and \$189,000 in harbormaster.

### ***Capital Asset and Debt Administration***

In conjunction with the operating budget, the Town annually prepares a capital budget for the upcoming year. The Town's major governmental capital asset activity in 2020 includes the wastewater infrastructure project which increased construction in progress by \$9.6 million. The wastewater project is scheduled to be turned over to the wastewater commission, and the wastewater enterprise fund, once the notice to connect is delivered to residents. Other increases include \$6.7 million in building and building improvements, which included \$4.4 million transferred from construction in progress for the fire station reconstruction project; and \$1.1 million in infrastructure related to road improvements.

The water enterprise fund reported additions totaling \$414,000 for infrastructure and machinery and equipment.

Depreciation expense for governmental and business-type activities totaled \$5.2 million and \$1.5 million, respectively.

The Town of Harwich's governmental funds had total bonded debt outstanding of \$24.8 million at the end of the current year. Of this amount, \$4.8 million was for marina improvements; \$3.4 million was for the construction of a police station; \$1.6 million is for land acquisitions; \$930,000 is related to harbor dredging, \$4.1 million is for sewer

projects; \$1.2 million is related to golf course improvements; \$5.7 million is related to the construction of a fire station; and \$2.1 million is related to the Saquatucket Harbormaster Building Boardwalk. The remaining \$1 million relates to other capital related projects.

The water enterprise fund has \$6.2 million in water debt that is fully supported by the rates and does not rely on a general fund subsidy. For further discussion please refer to Note 4 for major capital activity and Notes 7 and 8 for debt activity.

### ***Requests for Information***

This financial report is designed to provide a general overview of the Town of Harwich's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Town Hall, 732 Main Street, Harwich, Massachusetts 02645.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES**

YEAR ENDED JUNE 30, 2020

Net change in fund balances - total governmental funds.....		\$ (8,337,371)
<p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.</p>		
Capital outlay.....	13,853,598	
Depreciation expense.....	<u>(5,180,750)</u>	
Net effect of reporting capital assets.....		8,672,848
<p>Revenues in the Statement of Activities that do not provide current financial resources are unavailable in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable differ between the two statements. This amount represents the net change in unavailable revenue.....</p>		
		(55,935)
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are unavailable and amortized in the Statement of Activities.</p>		
Issuance of refunding bonds.....	(3,815,000)	
Premium from issuance of notes.....	(18,173)	
Premium from issuance of refunding bonds.....	(517,595)	
Net amortization of premium from issuance of bonds.....	399,744	
Net change in deferred charge on refunding.....	(28,102)	
Debt service principal payments.....	<u>7,551,950</u>	
Net effect of reporting long-term debt.....		3,572,824
<p>Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.</p>		
Net change in compensated absences accrual.....	(124,840)	
Net change in accrued interest on long-term debt.....	23,151	
Net change in deferred outflow/(inflow) of resources related to pensions.....	(1,921,507)	
Net change in net pension liability.....	292,323	
Net change in deferred outflow/(inflow) of resources related to other postemployment benefits....	307,343	
Net change in net other postemployment benefits liability.....	(551,192)	
Net change in landfill closure.....	<u>18,500</u>	
Net effect of recording long-term liabilities.....		<u>(1,956,222)</u>
Change in net position of governmental activities.....		\$ <u>1,896,144</u>

See notes to basic financial statements.

See notes to basic financial statements.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying basic financial statements of the Town of Harwich, Massachusetts (Town) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies are described herein.

A. Reporting Entity

The Town of Harwich, Massachusetts is a municipal corporation governed by an elected five-member Board of Selectmen.

For financial reporting purposes, the Town has included all funds, organizations, agencies, boards, commissions and institutions. The Town has also considered all potential component units for which it is financially accountable as well as other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the basic financial statements to be misleading or incomplete. As required by GAAP, these basic financial statements present the Town (Primary Government) and its component units. The Town did not identify any component units requiring inclusion in the basic financial statements.

*Joint Ventures*

The Town has entered into joint ventures with other municipalities to pool resources and share the costs, risk, and rewards of providing goods or services to venture participants directly, or for the benefit of the general public or specified recipients. The Town has no equity interest in the joint ventures. The following identifies where the joint venture financial statements are available, their purpose, and the annual assessments paid by the Town during 2020.

<u>Joint venture and address</u>	<u>Purpose</u>	<u>FY 2020 payments</u>
Monomoy Regional School District 425 Crowell Road Chatham, MA 02633	To provide education for grades K-12 for the Towns of Harwich and Chatham	\$ 26,643,415
Cape Cod Regional Technical High School 351 Pleasant Lake Avenue Harwich, MA 02645	To provide secondary vocational education for member Towns	\$ 2,317,475
Cape Cod Commission 3225 Main Street P.O. Box 226 Barnstable, MA 02630	Regional land use planning agency	\$ 234,056
Cape Cod Regional Transit Authority 585 Main Street Dennis, MA 02638	To provide public transportation	\$ 105,353
Town Department of Veteran Services PO Box 429 Hyannis, MA 02601	To provide veterans' services	\$ 40,263
Pleasant Bay Resource Management Alliance P.O. Box 1584 Harwich, MA 02645	To protect the vast natural resources of the bay	\$ 23,760

## B. Government-Wide and Fund Financial Statements

### *Government-Wide Financial Statements*

The government-wide financial statements (i.e., statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units.

*Governmental activities*, which are primarily supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which are supported primarily by user fees and charges.

### *Fund Financial Statements*

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and displayed in a single column.

#### *Major Fund Criteria*

Major funds must be reported if the following criteria are met:

- If total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of an individual governmental or enterprise fund are at least 10 percent of the corresponding element (assets and deferred outflows of resources, liabilities and deferred inflows or resources, etc.) for all funds of that category or type (total governmental or total enterprise funds), and
- If the total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding element for all governmental and enterprise funds combined.

Additionally, any other governmental or enterprise fund that management believes is particularly significant to the basic financial statements may be reported as a major fund.

## C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

### *Government-Wide Financial Statements*

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred. Real estate and personal property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of activities demonstrates the degree to which the direct expenses of a particular function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include the following:

- Charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment.

- Grants and contributions that are restricted to meeting the operational requirements of a particular function or segment.
- Grants and contributions that are restricted to meeting the capital requirements of a particular function or segment.

Taxes and other items not identifiable as program revenues are reported as general revenues.

For the most part, the effect of interfund activity has been removed from the government-wide financial statements. However, the effect of interfund services provided and used between functions is not eliminated as the elimination of these charges would distort the direct costs and program revenues reported for the functions affected.

#### *Fund Financial Statements*

**Governmental** fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when the fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Real estate and personal property tax revenues are considered available if they are collected within 60 days after year-end. Investment income is susceptible to accrual. Other receipts and tax revenues become measurable and available when the cash is received and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria is met. Expenditure driven grants recognize revenue when the qualifying expenditures are incurred and all other grant requirements are met.

The following major governmental funds are reported:

The *general fund* is the primary operating fund. It is used to account for all financial resources, except those that are required to be accounted for in another fund.

The *community preservation act fund* is a special revenue fund used to account for funds held for uses restricted by law for community preservation purposes. These funds are attributable to the Town's acceptance of the Community Preservation Act, which allows the Town to impose up to a 3% surcharge on property taxes and to receive matching state grant funds for specified uses related to the acquisition, creation, preservation and support of open space, historic resources, land for recreational use and community housing.

The *Town capital fund* is a capital project fund used to account for the construction, reconstruction and improvements of roadways, the wastewater management system, and other capital related projects.

The nonmajor governmental funds consist of other special revenue and capital projects that are aggregated and presented in the *nonmajor governmental funds* column on the governmental funds financial statements. The following describes the general use of these fund types:

The *special revenue fund* is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than permanent funds or capital projects.

The *capital projects fund* is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets of the governmental funds.

The *permanent fund* is used to account for and report financial resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the governmental programs.

**Proprietary** fund financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The *water enterprise fund* has been reported as a major proprietary fund and is used to account for the Town's water activities.

The *wastewater enterprise fund* has been reported as a major proprietary fund and is used to account for the Town's wastewater activities.

**Fiduciary** fund financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Fiduciary funds are used to account for assets held in a trustee capacity for others that cannot be used to support the governmental programs. Agency funds have no measurement focus.

The following fiduciary fund types are reported:

The *other postemployment benefit trust fund* is used to accumulate resources to provide funding for future other postemployment benefits (OPEB) liabilities.

The *private purpose trust fund* is used to account for trust arrangements that exclusively benefit individuals, private organizations, or other governments. Some of these trusts have donor restrictions and trustee policies that do not allow the endowment portion and any unrealized appreciation to be spent. The restrictions and trustee policies only allows the trustees to approve spending of the realized investment earnings. The Town's private purpose trust fund is primarily comprised of scholarships.

The *agency fund* is used to account for assets held in a purely custodial capacity. The Town's agency fund is comprised mainly of off duty police and fire details fees. The agency fund applies the accrual basis of accounting but does not have a measurement focus.

#### D. Cash and Investments

##### *Government-Wide and Fund Financial Statements*

Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with an original maturity of three months or less from the date of acquisition.

Investments are carried at fair value. The fair values were determined by the closing price for those securities traded on national stock exchanges and at the average bid-and-asked quotation for those securities traded in the over-the-counter market.

#### E. Fair Value Measurements

The Town reports required types of financial instruments in accordance with the fair value standards. These standards require an entity to maximize the use of observable inputs (such as quoted prices in active markets) and minimize the use of unobservable inputs (such as appraisals or valuation techniques) to determine fair value. Fair value standards also require the government to classify these financial instruments into a three-level hierarchy, based on the priority of inputs to the valuation technique or in accordance with net asset value practical expedient rules, which allow for either Level 2 or Level 3 depending on lock up and notice periods associated with the underlying funds.

Instruments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 – Quoted prices are available in active markets for identical instruments as of the reporting date. Instruments, which are generally included in this category, include actively traded equity and debt securities, U.S. government obligations, and mutual funds with quoted market prices in active markets.

Level 2 – Pricing inputs are other than quoted in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Certain fixed income securities, primarily corporate bonds, are classified as Level 2 because fair values are estimated using pricing models, matrix pricing, or discounted cash flows.

Level 3 – Pricing inputs are unobservable for the instrument and include situations where there is little, if any, market activity for the instrument. The inputs into the determination of fair value require significant management judgment or estimation.

In some instances, the inputs used to measure fair value may fall into different levels of the fair value hierarchy and is based on the lowest level of input that is significant to the fair value measurement.

Market price is affected by a number of factors, including the type of instrument and the characteristics specific to the instrument. Instruments with readily available active quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value. It is reasonably possible that change in values of these instruments will occur in the near term and that such changes could materially affect amounts reported in these financial statements. For more information on the fair value of the Town's financial instruments, see Note 2 – Cash and Investments.

## F. Accounts Receivable

### *Government-Wide and Fund Financial Statements*

The recognition of revenue related to accounts receivable reported in the government-wide financial statements and the proprietary funds and fiduciary funds financial statements are reported under the accrual basis of accounting. The recognition of revenue related to accounts receivable reported in the governmental funds financial statements are reported under the modified accrual basis of accounting.

### ***Real Estate, Personal Property Taxes and Tax Liens***

Real estate and personal property taxes are levied and based on values assessed on January 1<sup>st</sup> of every year. Assessed values are established by the Board of Assessor's for 100% of the estimated fair value. Taxes are due on August 1<sup>st</sup>, November 1<sup>st</sup>, February 1<sup>st</sup> and May 1<sup>st</sup> and are subject to penalties and interest if they are not paid by the respective due date. Real estate and personal property taxes levied are recorded as receivables in the year of the levy.

Real estate tax liens are processed yearly after the close of the valuation year on delinquent properties and are recorded as receivables in the year they are processed.

Real estate receivables are secured via the tax lien process and are considered 100% collectible. Accordingly, an allowance for uncollectibles is not reported.

Personal property taxes cannot be secured through the lien process. The allowance for uncollectibles is estimated based on historical trends and specific account analysis.

### ***Motor Vehicle and Other Excise Taxes***

Motor vehicle excise taxes are assessed annually for each vehicle registered and are recorded as receivables in the year of the levy. The Commonwealth is responsible for reporting the number of vehicles registered and the fair values of those vehicles. The tax calculation is the fair value of the vehicle multiplied by \$25 per \$1,000 of value. Boat excise taxes are assessed annually for each boat registered and are recorded as receivables in the year of the levy. The Commonwealth is responsible for reporting the number of boats registered and the fair value of those boats. The tax calculation is the fair value of the boat multiplied by \$10 per \$1,000 of value.

The allowance for uncollectibles is estimated based on historical trends and specific account analysis.

### ***User Fees***

Water user fees are levied semi-annually based on individual meter readings and are subject to penalties and interest if they are not paid by the respective due date. Unbilled user fees are estimated at year-end and are recorded as revenue in the current period. Water liens are processed annually and are included as a lien on the property owner's tax bill. Water charges and liens are recorded as receivables in the year of the levy.

Since the receivables are secured via the lien process, these accounts are considered 100% collectible and therefore do not report an allowance for uncollectibles.

***Departmental and Other***

Departmental and other receivables consist of mainly of ambulance receivables and are recorded as receivables in the year accrued. The allowance for uncollectibles is estimated based on historical trends and specific account analysis.

**Special Assessments**

Special assessments consist of apportioned and unapportioned road improvement and septic system betterments assessed to homeowners whose properties were improved through Town-run construction projects.

Since the receivables are secured via the lien process, these accounts are considered 100% collectible and therefore do not report an allowance for uncollectibles.

***Intergovernmental***

Various federal and state grants for operating and capital purposes are applied for and received annually. For non-expenditure driven grants, receivables are recorded as soon as all eligibility requirements imposed by the provider have been met. For expenditure driven grants, receivables are recorded when the qualifying expenditures are incurred and all other grant requirements are met.

These receivables are considered 100% collectible and therefore do not report an allowance for uncollectibles.

**G. Inventories and Prepaid Items*****Government-Wide and Fund Financial Statements***

The Town reports inventories in the general fund relating to bulk fuel purchases and in the nonmajor governmental funds relating to items held for resale at the Town's golf course. Other Town inventories are recorded as expenditures at the time of purchase since they are not material in total to the government-wide and fund financial statements. Inventories are valued at cost (first-in first-out).

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items are recorded as an expenditure/expense when consumed, rather than when purchased.

**H. Capital Assets*****Government-Wide and Proprietary Fund Financial Statements***

Capital assets, which include land, land improvements, buildings, machinery and equipment, and infrastructure (e.g., roads, water mains, and similar items), are reported in the applicable governmental or business-type activity column of the government-wide financial statements, and the proprietary fund financial statements. Capital assets are recorded at historical cost, or at estimated historical cost, if actual historical cost is not available. Donated capital assets; donated works of art, historical treasures and similar assets; and capital assets received in service concession arrangements are recorded at acquisition value. Except for the capital assets of the governmental activities column in the government-wide financial statements, construction period interest is capitalized on constructed capital assets.

All purchases and construction costs in excess of \$25,000 are capitalized at the date of acquisition or construction, respectively, with expected useful lives of greater than one year. All major general infrastructure

assets acquired or significantly reconstructed in years ending after June 30, 1980, have been recorded at estimated historical cost.

Capital assets (excluding land and construction in progress) are depreciated on a straight-line basis. The estimated useful lives of capital assets are as follows:

Capital Asset Type	Estimated Useful Life (in years)
Buildings and improvements.....	25 - 50
Improvements.....	10 - 50
Machinery and equipment.....	3 - 20
Infrastructure.....	25 - 50

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized and are treated as expenses when incurred. Improvements are capitalized.

*Governmental Fund Financial Statements*

Capital asset costs are recorded as expenditures in the acquiring fund in the year of the purchase.

I. Deferred Outflows/Inflows of Resources

*Government-Wide Financial Statements (Net Position)*

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has reported deferred outflows on refunding debt, deferred outflows of resources related to pensions, and deferred outflows of resources related to other postemployment benefits in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has reported taxes paid in advance, deferred inflows of resources related to pensions, and deferred inflows of resources related to other postemployment benefits in this category.

*Governmental Fund Financial Statements*

In addition to liabilities, the governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents amounts that have been recorded in the governmental fund financial statements but the revenue is not available and so will not be recognized as an inflow of resources (revenue) until it becomes available. The Town has recorded taxes paid in advance and unavailable revenue as deferred inflows of resources in the governmental funds balance sheet.

### J. Interfund Receivables and Payables

During the course of its operations, transactions occur between and within individual funds that may result in amounts owed between funds.

#### *Government-Wide Financial Statements*

Transactions of a buyer/seller nature between and within governmental funds and internal service funds are eliminated from the governmental activities in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of net position as "internal balances".

#### *Fund Financial Statements*

Transactions of a buyer/seller nature between and within funds are *not* eliminated from the individual fund statements. Receivables and payables resulting from these transactions are classified as "Due from other funds" or "Due to other funds" on the balance sheet.

### K. Interfund Transfers

During the course of its operations, resources are permanently reallocated between and within funds. These transactions are reported as transfers in and transfers out.

#### *Government-Wide Financial Statements*

Transfers between and within governmental funds are eliminated from the governmental activities in the statement of activities. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of activities as "Transfers, net".

#### *Fund Financial Statements*

Transfers between and within funds are *not* eliminated from the individual fund statements and are reported as transfers in and transfers out.

### L. Unavailable Revenue

Unavailable revenue at the governmental fund financial statement level represents billed receivables that do not meet the available criterion in accordance with the current financial resources measurement focus and the modified accrual basis of accounting, i.e. receivables that are not considered to be available to liquidate liabilities of the current period. Unavailable revenue is recognized as revenue in the conversion to the government-wide (full accrual) financial statements.

### M. Net Position and Fund Equity

#### *Government-Wide Financial Statements (Net Position)*

Net position reported as "net investment in capital assets" includes capital assets, net of accumulated depreciation, less the principal balance of outstanding debt used to acquire capital assets. Unspent proceeds of capital related debt are not considered to be capital assets. Outstanding debt related to future reimbursements from the state's school building program is not considered to be capital related debt.

Net position is reported as restricted when amounts are not available for appropriation or are legally restricted by outside parties for a specific future use.

Net position has been “restricted for” the following:

“Perpetual care and other permanent funds - expendable” represents the amount of realized and unrealized investment earnings of donor restricted trusts. The restrictions and trustee policies only allows the trustees to approve spending of the realized investment earnings.

“Perpetual care and other permanent funds - nonexpendable” represents the endowment portion of donor restricted trusts.

“Gifts and grants” represents restrictions placed on assets from outside parties.

“Community preservation” represents amounts held for uses restricted by law for community preservation purposes.

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town’s policy to consider restricted net position to have been depleted before unrestricted net position is applied.

#### *Fund Financial Statements (Fund Balances)*

Governmental fund balances are classified as nonspendable, restricted, committed, assigned, or unassigned based on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The governmental fund balance classifications are as follows:

“Nonspendable” fund balance includes amounts that cannot be spent because they are either not in spendable form or they are legally or contractually required to be maintained intact.

“Restricted” fund balance includes amounts subject to constraints placed on the use of resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or that are imposed by law through constitutional provisions or enabling legislation.

“Committed” fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of Open Town Meeting, the government’s highest level of decision-making authority. Town Meeting is the highest level of decision-making authority that can, by majority vote of a warrant article at an open Town Meeting, commit funds for a specific purpose. Once voted, the limitation imposed by the vote remains in place until the funds are used for their intended purpose, the purpose no longer exists, or a vote is taken to modify the commitment.

“Assigned” fund balance includes amounts that are constrained by the Town’s intent to be used for specific purposes, but are neither restricted nor committed. The Town’s by-laws authorize the Town Accountant to assign fund balance which generally only exists temporarily. Additional action does not have to be taken for the removal of an assignment.

“Unassigned” fund balance includes the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount.

Sometimes the Town will fund outlays for a particular purpose from different components of fund balance. In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. When different components of fund balance can be used for the same purpose, it is the Town’s policy to consider restricted fund balance to have been depleted first, followed by committed fund balance, and assigned fund balance. Unassigned fund balance is applied last.

#### N. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of both the Barnstable County Retirement Association and the Massachusetts Teachers’ Retirement System and additions to/deductions from the Systems fiduciary net position have been determined on the same basis as they are reported by the Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### O. Long-term debt

##### *Government-Wide and Proprietary Fund Financial Statements*

Long-term debt is reported as liabilities in the government-wide and proprietary fund statement of net position. Material bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

##### *Governmental Fund Financial Statements*

The face amount of governmental funds long-term debt is reported as other financing sources. Bond premiums and discounts, as well as issuance costs, are recognized in the current period. Bond premiums are reported as other financing sources and bond discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual bond proceeds received, are reported as general government expenditures.

#### P. Investment Income

Excluding the permanent funds, investment income derived from major and nonmajor governmental funds is legally assigned to the general fund unless otherwise directed by Massachusetts General Law (MGL).

#### Q. Compensated Absences

Employees are granted vacation and sick leave in varying amounts based on collective bargaining agreements, state laws and executive policies.

##### *Government-Wide and Proprietary Fund Financial Statements*

Vested or accumulated vacation and sick leave are reported as liabilities and expensed as incurred.

*Governmental Fund Financial Statements*

Vested or accumulated vacation and sick leave, which will be liquidated with expendable available financial resources, are reported as expenditures and fund liabilities upon maturity of the liability.

R. Use of Estimates*Government-Wide and Fund Financial Statements*

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of the revenues and expenditures/expenses during the year. Actual results could vary from estimates that were used.

S. Individual Fund Deficits

Individual fund deficits exist within the capital project fund. These deficits will be funded through grants, available funds, and bond proceeds in future years.

T. Total Column*Government-Wide Financial Statements*

The total column presented on the government-wide financial statements represents consolidated financial information.

*Fund Financial Statements*

The total column on the fund financial statements is presented only to facilitate financial analysis. Data in this column is not the equivalent of consolidated financial information.

**NOTE 2 – CASH AND INVESTMENTS**

A cash and investment pool is maintained that is available for use by all funds. Each fund type's portion of this pool is displayed on the balance sheet as "Cash and Cash equivalents". The deposits and investments of the trust funds are held separately from those of other funds.

Statutes authorize the investment in obligations of the U.S. Treasury, agencies, instrumentalities, certificates of deposit, repurchase agreements, money market accounts, bank deposits and the State Treasurer's Investment Pool (Pool). The Treasurer may also invest trust funds in securities, other than mortgages or collateral loans, which are legal for the investment of funds of savings banks under the laws of the Commonwealth. The Pool meets the criteria of an external investment pool. The Pool is administered by the Massachusetts Municipal Depository Trust (MMDT), which was established by the Treasurer of the Commonwealth who serves as Trustee. The fair value of the position in the Pool is the same as the value of the Pool shares.

Custodial Credit Risk – Deposits

In the case of deposits, the custodial credit risk is the risk that, in the event of a bank failure, the Town's deposits may not be recovered. At year-end, the carrying amount of deposits totaled \$25,654,597 and the bank balance totaled \$26,363,573. Of the bank balance, \$1,500,000 was covered by Federal Depository Insurance,

\$17,592,815 was covered by Depositors Insurance Fund, and \$7,270,758 was exposed to custodial credit risk because it was uninsured and uncollateralized. The Town's investment policy limits its custodial credit risk by 1) pre-qualifying banks, 2) diversifying its investments across several banks and 3) collateralizing deposits where practical.

#### Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of a failure by the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town's investments of \$3,781,248 in debt securities and \$3,070,985 in equity securities are exposed to custodial credit risk as the securities are uninsured. The shares of open-end mutual funds are not subject to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form. The Town's investment policy allows for unlimited investments in United States Treasury Investments and United States Government obligations. Other investments are allowed with a high concentration of securities rated A or better.

The Town's investment policy requires the review of each financial institution's financial statements and the background of the sales representatives to limit the Town's exposure to only those institutions with proven financial strength. Further, all securities not held directly by the Town must be held in the Town's name and tax identification number by a third-party custodian approved by the Treasurer and evidenced by safekeeping receipts showing individual CUSIP numbers for each security.

#### Investments

As of June 30, 2020, the Town of Harwich had the following investments:

<u>Investment Type</u>	<u>Fair value</u>	<u>Maturities</u>		
		<u>Under 1 Year</u>	<u>1-5 Years</u>	<u>6-10 Years</u>
<u>Debt securities:</u>				
U.S. treasury notes.....	\$ 1,504,076	\$ 75,229	\$ 1,145,839	\$ 283,008
Government sponsored enterprises.....	1,206,579	201,675	929,562	75,342
Corporate bonds.....	1,070,593	50,630	771,552	248,411
Total debt securities.....	3,781,248	\$ 327,534	\$ 2,846,953	\$ 606,761
<u>Other investments:</u>				
Equity securities.....	3,070,985			
Mutual funds.....	98,101			
Equity mutual funds.....	1,231,581			
Fixed income mutual funds.....	901,913			
Money market mutual funds.....	137,697			
Total investments.....	\$ 9,221,525			

#### Interest Rate Risk

The Town's investment policy limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates and to match investment maturities with anticipated cash flow requirements.

Credit Risk

Credit risk is the risk of loss due to the failure of the security issuer or backer. At June 30, 2020, the Town’s investments were rated as follows:

<u>Quality Rating</u>	<u>Government Sponsored Enterprises</u>	<u>Corporate Bonds</u>
AAA.....	\$ 1,206,579	\$ -
BBB+.....	-	455,664
A.....	-	388,783
AA.....	-	226,146
Total.....	<u>\$ 1,206,579</u>	<u>\$ 1,070,593</u>

Additionally, the Town has \$137,697 in money market mutual funds, all of which are unrated.

The Town’s investment policy allows for unlimited investments in U.S. Treasury Notes and United States Government Agency obligations. Other investments should include investment grade securities with a high concentration in securities rates A or better.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the Town’s investment in a single issuer. The Town places no limit on the amount the government may invest in any one issuer. As of June 30, 2020, the Town’s had no investments with a single issuer that represented 5 percent or more of the Town’s total investments.

Fair Value of Investments

The Town holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the Town’s mission, the Town determines that the disclosures related to these investments only need to be disaggregated by major type. The Town chooses a tabular format for disclosing the levels within the fair value hierarchy.

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Town has the following recurring fair value measurements as of June 30, 2020:

Investment Type	June 30, 2020	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<b>Investments measured at fair value:</b>				
<u>Debt securities:</u>				
U.S. treasury notes.....	\$ 1,504,076	\$ 1,504,076	\$ -	\$ -
Government sponsored enterprises.....	1,206,579	1,206,579	-	-
Corporate bonds.....	1,070,593	-	1,070,593	-
Total debt securities.....	3,781,248	2,710,655	1,070,593	-
<u>Other investments:</u>				
Equity securities.....	3,070,985	3,070,985	-	-
Mutual funds.....	98,101	98,101	-	-
Equity mutual funds.....	1,231,581	1,231,581	-	-
Fixed income mutual funds.....	901,913	901,913	-	-
Money market mutual funds.....	137,697	137,697	-	-
Total other investments.....	5,440,277	5,440,277	-	-
Total investments.....	\$ 9,221,525	\$ 8,150,932	\$ 1,070,593	\$ -

U.S. treasury notes, government sponsored enterprises, equity securities, mutual funds, equity mutual funds, fixed income mutual funds, and money market mutual funds, classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Corporate bonds classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

**NOTE 3 – RECEIVABLES**

At June 30, 2020, receivables for the individual major and nonmajor governmental funds, including the applicable allowances for uncollectible accounts, are as follows:

	Gross Amount	Allowance for Uncollectibles	Net Amount
<u>Receivables:</u>			
Real estate and personal property taxes.....	\$ 1,098,804	\$ -	\$ 1,098,804
Tax liens.....	2,480,213	-	2,480,213
Community preservation fund surtax.....	27,398	-	27,398
Motor vehicle and other excise taxes.....	228,621	(40,446)	188,175
Departmental and other.....	805,377	(175,300)	630,077
Intergovernmental.....	1,228,258	-	1,228,258
Community preservation state share.....	271,530	-	271,530
Special assessments.....	357,514	-	357,514
Total.....	<u>\$ 6,497,715</u>	<u>\$ (215,746)</u>	<u>\$ 6,281,969</u>

At June 30, 2020, receivables for the water enterprise fund consist of the following:

	Gross Amount	Allowance for Uncollectibles	Net Amount
<u>Receivables:</u>			
Water user fees.....	<u>\$ 1,018,767</u>	<u>\$ -</u>	<u>\$ 1,018,767</u>

Governmental funds report *unavailable revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At the end of the current year, the various components of *unavailable revenue* reported in the governmental funds were as follows:

	General Fund	Other Governmental Funds	Total
<u>Receivables and other asset types:</u>			
Real estate and personal property taxes.....	\$ 797,207	\$ -	\$ 797,207
Tax liens.....	2,431,234	48,979	2,480,213

Water.....	<u>\$ 1,508,448</u>
------------	---------------------

**NOTE 5 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS**

At June 30, 2020, the Town had an interfund receivable/payable between the general fund and the federal grants nonmajor fund totaling \$17,125. The purpose of this balance is to cover short-term cash needs that will be funded by future grant proceeds.

Interfund transfers for the year ended June 30, 2020, are summarized as follows:

Transfers Out:	Transfers In:				Total
	General fund	Town capital fund	Nonmajor governmental funds	Wastewater enterprise fund	
General fund.....	\$ -	\$ 426,700	\$ 69,168	\$ 225,000	\$ 720,868 (1)
Community preservation act fund.	553,700	-	810,000	-	1,363,700 (2)
Town capital fund.....	-	-	13,123	-	13,123 (3)
Nonmajor governmental funds.....	847,497	-	16,497	-	863,994 (4)
Total.....	\$ 1,401,197	\$ 426,700	\$ 908,788	\$ 225,000	\$ 2,961,685

- (1) Represents budgeted transfers from the general fund to the Town capital fund; to nonmajor governmental funds to fund special revenue programs; and to the wastewater enterprise fund.
- (2) Represents a transfer to the general fund for debt service payments funded with community preservation act funds and a transfer from the CPA fund to the newly formed affordable housing trust within the nonmajor governmental funds.
- (3) Represents a transfer from the Town capital fund to the Saquatucket Harbor capital fund.
- (4) Represents transfers from the nonmajor governmental funds to the general fund to fund the budget, mainly from receipts reserved for appropriation funds for golf, cemetery, PEG access, waterways, and betterments. Also transfers between nonmajor governmental funds.

**NOTE 6 – LANDFILL**

State and Federal laws and regulations require the Town to place a final cover on its landfill site and to perform certain maintenance and monitoring functions at the site for thirty years thereafter. The landfill has stopped accepting solid waste and pursuant to a Massachusetts Department of Environmental Protection consent order, the Town has placed a final cover on its landfill. Based upon experience, the Town estimates annual monitoring costs are \$18,500 per year, which is included within the annual appropriations. As of June 30, 2020, \$203,500 has been reported on the Town’s statement of net position as an estimated remaining liability for post-closure monitoring costs of the landfill. Actual costs may change due to changes in regulations, technology, and inflation.

**NOTE 7 – SHORT-TERM FINANCING**

Short-term debt may be authorized and issued to fund the following:

- Current operating costs prior to the collection of revenues through issuance of revenue or tax anticipation notes (RANS or TANS).
- Capital project costs and other approved expenditures incurred prior to obtaining permanent financing through issuance of bond anticipation notes (BANS) or grant anticipation notes (GANS).

Short-term loans are general obligations and carry maturity dates that are limited by statute. Interest expenditures and expenses for short-term borrowings are accounted for in the general fund and water enterprise fund, respectively.

Details related to the short-term debt activity for the year ended June 30, 2020, is as follows:

Type	Purpose	Rate (%)	Due Date	Balance at June 30, 2019	Renewed/ Issued	Retired/ Redeemed	Balance at June 30, 2020
<b>Governmental Funds:</b>							
BAN	Municipal Purpose.....	2.50%	06/18/20	\$ 2,161,617	\$ -	\$ (2,161,617)	\$ -
BAN	Municipal Purpose.....	2.00%	06/11/21	-	1,765,800	-	1,765,800
BAN	*MCWT Direct Interim Loan.....	0.00%	12/31/20	-	8,716,286	-	8,716,286
Total Governmental Funds.....				\$ 2,161,617	\$ 10,482,086	\$ (2,161,617)	\$ 10,482,086

\*The Town entered into a short-term interest free loan agreement through the Massachusetts Clean Water Trust (MCWT) interim loan program which provides funding to allow projects to proceed during the time prior to permanent financing by the Trust.

**NOTE 8 – LONG-TERM DEBT**

Under the provisions of Chapter 44, Section 10, Municipal Law authorizes indebtedness up to a limit of 5% of the equalized valuation. Debt issued in accordance with this section of the law is designated as being "inside the debt limit". In addition, however, debt may be authorized in excess of that limit for specific purposes. Such debt, when issued, is designated as being "outside the debt limit."

In order to take advantage of favorable interest rates, the Town issued \$3,815,000 of general obligation refunding bonds on August 20, 2019. The proceeds of the refunding bonds were used to complete a current refunding of existing debt. The refunded bonds totaled \$4,250,000 and became callable on October 1, 2019. As a result of the transaction, the refunded bonds were paid down on the call date and the liability has been removed from the statement of net position. The transaction resulted in an economic gain of \$498,193 and a reduction of \$532,213 in future debt service payments.

Details related to the outstanding general obligation indebtedness at June 30, 2020, and the debt service requirements are as follows:

**Bonds and Notes Payable Schedule – Governmental Funds**

Project	Maturities Through	Original Loan Amount	Interest Rate (%)	Outstanding at June 30, 2020

Fire Station.....	100,000
Total.....	\$ <u>33,507,696</u>

Changes in Long-term Liabilities

During the year ended June 30, 2020, the following changes occurred in long-term liabilities:

	(As Restated) Beginning Balance	Bonds and Notes Issued	Bonds and Notes Redeemed	Other Increases	Other Decreases	Ending Balance	Due Within One Year
<b>Governmental Activities:</b>							
Long-term general obligation bonds payable..	\$ 28,470,000	\$ 3,815,000	\$ (7,535,000)	\$ -	\$ -	\$ 24,750,000	\$ 3,010,000
Long-term direct borrowings payable.....	52,483	-	(16,950)	-	-	35,533	17,170
Add: Unamortized premium on bonds.....	2,356,801	535,768	(399,744)	-	-	2,492,825	393,776
Total bonds payable.....	30,879,284	4,350,768	(7,951,694)	-	-	27,278,358	3,420,946
Landfill closure.....	222,000	-	-	-	(18,500)	203,500	18,500
Compensated absences.....	1,296,502	-	-	660,631	(535,791)	1,421,342	608,799
Net pension liability.....	32,366,655	-	-	2,530,269	(2,822,592)	32,074,332	-
Net other postemployment benefits.....	38,881,348	-	-	3,136,809	(2,585,617)	39,432,540	-
Total governmental activity long-term liabilities.....	\$ 103,645,789	\$ 4,350,768	\$ (7,951,694)	\$ 6,327,709	\$ (5,962,500)	\$ 100,410,072	\$ 4,048,245
<b>Business-Type Activities:</b>							
Long-term general obligation bonds payable..	\$ 5,080,000	\$ -	\$ (470,000)	\$ -	\$ -	\$ 4,610,000	\$ 465,000
Long-term direct borrowings payable.....	1,642,746	-	(80,913)	-	-	1,561,833	82,671
Add: Unamortized premium on bonds.....	135,197	-	(18,384)	-	-	116,813	16,747
Total bonds payable.....	6,857,943	-	(569,297)	-	-	6,288,646	564,418
Compensated absences.....	86,461	-	-	38,708	(31,949)	93,220	38,868
Net pension liability.....	2,385,223	-	-	114,300	(202,171)	2,297,352	-
Net other postemployment benefits.....	2,860,444	-	-	149,143	(185,197)	2,824,390	-
Total business-type activity long-term liabilities.....	\$ 12,190,071	\$ -	\$ (569,297)	\$ 302,151	\$ (419,317)	\$ 11,503,608	\$ 603,286

Long-term liabilities related to both governmental and business-type activities are normally paid from the general fund and enterprise funds, respectively.

**NOTE 9 – GOVERNMENTAL FUND BALANCE CLASSIFICATIONS**

The Town classifies fund balance according to constraints imposed on the uses of those resources.

There are two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The Town has reported principal portions of endowment funds, and inventory as nonspendable.

In addition to the nonspendable fund balance, spendable fund balances are classified based on a hierarchy of spending constraints.

- Restricted: fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- Committed: fund balances that contain self-imposed constraints of the government from its highest level of decision making authority.
- Assigned: fund balances that contain self-imposed constraints of the government to be used for a particular purpose.
- Unassigned: fund balance of the general fund that is not constrained for any particular purpose.

Massachusetts General Law Ch.40 §5B allows for the establishment of Stabilization funds for one or more different purposes on an as needed basis. The creation of a fund requires a two-thirds vote of the legislative body and must clearly define the purpose of the fund. Any change to the purpose of the fund along with any additions to or appropriations from the fund requires a two-thirds vote of the legislative body. The stabilization fund balance can be used for general and/or capital purposes upon approval of Town Meeting. Additions to and withdrawals from the funds can only be made upon Town Meeting approval.

In accordance with Massachusetts General Law the Town has established a general stabilization fund. At year end, the balance of the Town’s stabilization fund was \$4,540,651, and was reported as unassigned fund balance within the general fund.

The committed balances in the general fund consist of articles carried forward to next year. Assigned balances in the general fund are encumbrances carried forward to next year. The detail of each article and encumbrance is included in the budgetary comparison schedule presented as required supplementary information.

As of June 30, 2020, the governmental fund balances consisted of the following:

	General	Community Preservation Act Fund	Town Capital Fund	Nonmajor Governmental Funds	Total Governmental Funds
Fund Balances:					
Nonspendable:					
Trust fund principal.....	\$ -	\$ -	\$ -	\$ 521,217	\$ 521,217
Inventory.....	-	-	-	57,010	57,010
Restricted for:					
Community Preservation Act Fund.....	-	4,962,521	-	-	4,962,521
Federal grants.....	-	-	-	38,942	38,942
State grants.....	-	-	-	191,478	191,478
Local gifts and grants.....	-	-	-	251,458	251,458
Highway improvements.....	-	-	-	19,336	19,336
Revolving funds.....	-	-	-	1,158,802	1,158,802
Receipts reserved for appropriation.....	-	-	-	2,473,914	2,473,914
Other special revenue funds.....	-	-	-	93,876	93,876
Special revenue trust funds.....	-	-	-	1,015,657	1,015,657

**NOTE 10 – COMMUNITY PRESERVATION FUNDS**

The Town has approved the Community Preservation Act (CPA) which allows the Town to impose a surcharge on property taxes and to receive matching state funds for specified uses related to the acquisition, creation, preservation and support of open space, historic resources, land for recreational use and community housing. The CPA requires that the Town spend or set aside for later spending a minimum of 10% of annual revenues for open space, a minimum of 10% of annual revenues for historic resources and a minimum of 10% of annual revenues for community housing.

In accordance with the CPA, the Town has approved a bylaw establishing a Community Preservation Committee (CPC) to study the needs, possibilities and resources of the Town regarding community preservation and to make recommendations for Town Meeting approval to fund eligible projects using CPA funds.

As of June 30, 2020, the CPA fund has a balance of \$4,962,521 and is reported as a major fund in the governmental funds financial statements.

**NOTE 11 – RISK FINANCING**

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance. The Town participates in a premium-based health care plan for its active and retired employees. The amount of claim settlements has not exceeded insurance coverage in any of the previous three years.

The Town provides health insurance through the Cape Cod Municipal Health Group (Group), a nonprofit shared risk health group comprised of 51 governmental units. The Town and its employees contribute to the Group based upon a 75% (Town) and 25% (employee) primary care premium formula. In the event the Group is terminated, the Town is obligated to pay its prorated share of a deficit, should one exist.

The Town carries commercial insurance for worker's compensation claims as well as public safety personnel "injured on duty" insurance in excess of \$40,000 per claim. The Town's share of unpaid liabilities as of June 30, 2020, is immaterial to the financial statements and therefore is not reported.

The Town is self-insured for unemployment claims which are funded on a pay-as-you-go basis from annual appropriations paid from the general fund. The Incurred But Not Reported is immaterial to the financial statements and therefore is not reported.

**NOTE 12 – PENSION PLAN***Plan Descriptions*

The Town is a member of the Barnstable County Retirement Association (BCRA), a cost-sharing multiple-employer defined benefit pension plan covering eligible employees of the 50 member units. The BCRA is administered by five board members (Board) on behalf of all current employees and retirees. Chapter 32 of the MGL assigns authority to establish and amend benefit provisions of the plan. The audited financial report may be obtained by visiting <http://www.barnstablecounty.org/retirement-association/>.

*Benefits Provided*

BCRA provides retirement, disability, survivor and death benefits to plan members and beneficiaries. Massachusetts Contributory Retirement System benefits are, with certain minor exceptions, uniform from system to system. The System provides for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. For persons who became members on or after April 2, 2012, average salary is the average annual rate of regular compensation received during the five consecutive years that produce the highest average, or, if greater, during the last five years (whether or not consecutive) preceding retirement. Benefit payments are based upon a member's age, length of creditable service, level of compensation, and group classification. Members become vested after ten years of creditable service.

Employees who resign from service and who are not eligible to receive a retirement allowance or are under the age of 55 are entitled to request a refund of their accumulated total deductions. Survivor benefits are extended to eligible beneficiaries of members whose death occurs prior to or following retirement.

Cost-of-living adjustments granted between 1981 and 1997 and any increase in other benefits imposed by the Commonwealth's state law during those years are borne by the Commonwealth and are deposited into the pension fund. Cost-of-living adjustments granted after 1997 must be approved by the Board and are borne by the System.

*Contributions*

Chapter 32 of the MGL governs the contributions of plan members and member units. Active plan members are required to contribute to the System at rates ranging from 5% to 9% of gross regular compensation with an additional 2% contribution required for compensation exceeding \$30,000. The percentage rate is keyed to the date upon which an employee's membership commences. The member units are required to pay into the BCRA a legislatively mandated actuarial determined contribution that is apportioned among the employers based on active current payroll. The Town's proportionate share of the required contribution was \$3,012,208 and its actual contribution for the year ended June 30, 2020, was \$3,024,763, 21.28% of covered payroll, actuarially determined as an amount that, when combined with plan member contributions, is expected to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability.

*Pension Liabilities*

At June 30, 2020, the Town reported a liability of \$34,371,684 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2020. Accordingly, procedures were used to roll back the total pension liability to the measurement date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At December 31, 2019, the Town's proportion was 4.575%, which is 0.178% more than its proportion measured at December 31, 2018.

*Pension Expense*

For the year ended June 30, 2020, the Town recognized pension expense of \$4,713,110. At June 30, 2020, the Town reported net deferred outflows of resources and deferred inflows of resources related to pensions of \$5,601,194 and \$2,787,569, respectively.

The balances of deferred outflows and inflows at June 30, 2020, consist of the following:

Deferred Category	Deferred Outflows of Resources	Deferred Inflows of Resources	Total
Differences between expected and actual experience.....	\$ -	\$ (289,723)	\$ (289,723)
Difference between projected and actual earnings, net.....	-	(2,054,102)	(2,054,102)
Changes in assumptions.....	3,995,943	-	3,995,943
Changes in proportion and proportionate share of contributions...	1,605,251	(443,744)	1,161,507
Total deferred outflows/(inflows) of resources.....	\$ 5,601,194	\$ (2,787,569)	\$ 2,813,625

The deferred outflows/(inflows) of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2021.....	\$ 789,343
2022.....	786,074
2023.....	1,073,318
2024.....	(393,914)
2025.....	558,804
Total.....	\$ 2,813,625

*Actuarial Assumptions*

The total pension liability was determined by an actuarial valuation as of January 1, 2020, using the following actuarial assumptions, applied to all periods included in the measurement that was rolled back to December 31, 2019:

Valuation date.....	January 1, 2020
Actuarial cost method.....	Entry Age Actuarial Cost Method.
Projected salary increases.....	3.25%
Cost of living adjustments.....	3% of the first \$18,000.
Investment rate of return/ Discount rate.....	7.15% (previously, 7.375%).
Mortality Rates:	
Pre-Retirement.....	RP-2014 Blue Collar Employee Mortality Table projected generationally with Scale MP-2017.
Healthy Retiree.....	RP-2014 Blue Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2017.
Disabled Retiree.....	RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward one year and projected generationally with Scale MP-2017.

*Investment Policy*

The pension plan’s policy in regard to the allocation of invested assets is established and may be amended by the Board and pursuant to Massachusetts General Laws and Public Employee Retirement Administration guidelines. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

The investment objective is to fully fund the Plan by generating sufficient long-term inflation adjusted capital appreciation while providing sufficient liquidity to meet short-term withdrawal requirements. The Board desires to balance the goal of higher long-term returns with the goal of minimizing contribution volatility, recognizing these are often competing goals. This requires taking both assets and liabilities into account when setting investment strategy.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation as of January 1, 2020, are summarized in the following table:

Asset Class	Long-Term Expected Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity.....	21.00%	6.15%
International developed markets equity.....	13.00%	6.78%
International emerging markets equity.....	5.00%	8.65%
Core fixed income.....	15.00%	1.11%
High-yield fixed income.....	8.00%	3.51%
Real estate.....	10.00%	4.33%
Commodities.....	4.00%	4.13%
Hedge fund, GTAA, Risk parity.....	11.00%	3.19%
Private equity.....	13.00%	9.99%
Total.....	100.00%	

*Rate of Return*

For the year ended December 31, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 16.09%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

*Discount Rate*

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the actuarially determined contribution rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Net Pension Liability to Changes in the Discount Rate*

The following presents the net pension liability, calculated using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15%) or 1-percentage-point higher (8.15%) than the current rate:

	1% Decrease (6.15%)	Current Discount (7.15%)	1% Increase (8.15%)
	<u>                    </u>	<u>                    </u>	<u>                    </u>
The Town's proportionate share of the net pension liability.....	\$ 45,200,514	\$ 34,371,684	\$ 25,274,219

*Pension Plan Fiduciary Net Position*

Detailed information about the pension plan’s fiduciary net position is available in the separately issued Barnstable County Retirement Association’s financial report.

*Changes in Assumptions*

- The net investment return assumption was lowered from 7.375% to 7.15%.
- The administrative expense assumption was changed from \$1,500,000 to \$1,850,000.

*Changes in Plan Provisions* – None.

**NOTE 13 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS**

*Plan Description*

The Town of Harwich administers a single-employer defined benefit healthcare plan (Plan). The Plan provides lifetime healthcare and life insurance for eligible retirees and their spouses through a single-employer defined Other Postemployment Benefit (OPEB) plan. Chapter 32B of the MGL assigns authority to establish and amend benefit provisions of the plan. Benefit provisions are negotiated between the Town and the unions representing Town employees and are renegotiated each bargaining period. The Plan does not issue a publicly available financial report. Additionally, retired teachers and their spouses receive health insurance through the Group Insurance Commission of the Commonwealth of Massachusetts (GIC). Each participating municipality is assessed for the governmental share of health and life insurance premiums paid on-behalf of its teacher retirees by the state. The state pays 85 – 90% of the total premium; the retiree's co-payment is 10 – 15% of the total premium as well as full payment for catastrophic illness coverage.

*Funding Policy*

The contribution requirements of plan members and the Town are established and may be amended by the Town. The required contribution is based on a pay-as-you-go financing requirement. The Town contributes 75% of the cost of current-year premiums for eligible retired plan members and their spouses. Plan members receiving benefits contribute the remaining 25% of their premium costs. For 2020, the Town’s age-adjusted contribution to the plan totaled \$2.8 million, which includes \$750,000 in pre-funding as described below.

The Commonwealth of Massachusetts passed special legislation that has allowed the Town to establish a postemployment benefit trust fund and to enable the Town to raise taxes necessary to begin pre-funding its OPEB liabilities.

During 2020, the Town pre-funded future OPEB liabilities totaling \$750,000 by contributing funds to the Other Postemployment Benefit Fund in excess of the pay-as-you-go required contribution. These funds are reported within the Fiduciary Funds financial statements. As of June 30, 2020, the balance of this fund totaled \$3,346,942.

*Summary of Significant Accounting Policies*

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan’s fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts (repurchase agreements) that have a maturity at the time of purchase of one year or less, which are reported at cost.

*Employees Covered by Benefit Terms*

The following table represents the Plan’s membership at June 30, 2018:

Active members.....	169
Inactive members currently receiving benefits.....	<u>361</u>
Total.....	<u><u>530</u></u>

*Components of OPEB Liability*

The following table represents the components of the Plan’s OPEB liability as of June 30, 2020:

Total OPEB liability.....	\$ 45,603,872
Less: OPEB plan’s fiduciary net position.....	<u>(3,346,942)</u>
Net OPEB liability.....	<u><u>\$ 42,256,930</u></u>
The OPEB plan’s fiduciary net position as a percentage of the total OPEB liability.....	7.34%

*Significant Actuarial Methods and Assumptions*

The total OPEB liability in the June 30, 2018, actuarial valuation was determined by using the following actuarial assumptions, applied to all periods included in the measurement that was updated to June 30, 2020, as follows.

Valuation date.....	June 30, 2018
Actuarial cost method.....	Entry age normal - level percentage of payroll.

Inflation rate.....	3.25%
Discount rate.....	5.32% as of June 30, 2020 and 5.85% as of June 30, 2019.
Investment rate of return.....	7.00%
Salary increases.....	<p>Service-related increases for Group 1 (excluding Teachers) and Group 2 employees: 6.0% decreasing over 11 years to an ultimate level of 4.0%.</p> <p>Service-related increases for Group 4 employees: 7.0% decreasing over 8 years to an ultimate level of 4.5%.</p> <p>Service-related increases for Teachers: 7.5% decreasing over 20 years to an ultimate level of 4.0%.</p>
Health care trend rates:	
CCMHG.....	<p>Non-Medicare: 0% for 1 year, then 7.0% decreasing by 0.25% each year to an ultimate level of 4.5% per year.</p> <p>Medicare: 7.25% decreasing by 0.25% each year to an ultimate level of 4.5% per year.</p>
GIC.....	8.0% decreasing by 0.5% for 5 years, then by 0.25% for 2 years to an ultimate level of 5.0% per year.
Part B.....	4.50%
Contributions.....	Retiree contributions are expected to increase with respective trends shown above.
Mortality rates:	
Preretirement mortality rates.....	<p>Healthy Non-Teachers: RP-2014 Blue Collar Employee Mortality Table projected generationally with Scale MP-2017.</p> <p>Healthy Teachers: RP-2014 White Collar Employee Mortality Table projected generationally with Scale MP-2016.</p>
Postretirement mortality rates.....	<p>Healthy Non-Teachers: RP-2014 Blue Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2017.</p> <p>Healthy Teachers: RP-2014 White Collar Annuitant Mortality Table projected generationally with Scale MP-2016.</p> <p>Disabled Non-Teachers: RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward one year projected generationally with Scale MP-2017.</p> <p>Disabled Teachers: RP-2014 Healthy Annuitant Table set forward 4 years and projected generationally with Scale BB2D from 2014.</p>

*Rate of Return*

For the year ended June 30, 2020, the annual money-weighted rate of return on investments, net of investment expense, was 5.00%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan’s target asset allocation as of June 30, 2020, are summarized in table as follows:

Asset Class	Long-Term Expected Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity.....	21.00%	6.15%
International developed markets equity..	13.00%	6.78%
International emerging markets equity...	5.00%	8.65%
Core fixed income.....	15.00%	1.11%
High-yield fixed income.....	8.00%	3.51%
Real estate.....	10.00%	4.33%
Commodities.....	4.00%	4.13%
Hedge fund, GTAA, Risk parity.....	11.00%	3.19%
Private equity.....	13.00%	9.99%
Total.....	100.00%	

*Discount Rate*

The discount rate used to measure the total OPEB liability was 5.32% as of June 30, 2020 and 5.85% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed that contributions will be made in accordance with the Plan’s funding policy. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to be insufficient to make all projected benefit payments to current plan members. Therefore, the discount rate is a blend of the long-term expected rate of return on OPEB Trust Fund assets and a yield or index rate using the 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (2.21% as of June 30, 2020, and 3.50% as of June 30, 2019).

*Changes in the Net OPEB Liability*

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balances at June 30, 2019.....	\$ 42,322,158	\$ 2,440,720	\$ 39,881,438
Changes for the year:			
Service cost.....	1,085,819	-	1,085,819
Interest.....	2,480,258	-	2,480,258
Differences between expected and actual experience.....	-	-	-

*OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB*

For the year ended June 30, 2020, the Town recognized OPEB expense of \$2,878,565. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Deferred Category	Deferred Outflows of Resources	Deferred Inflows of Resources	Total
Differences between expected and actual experience.....	\$ -	\$ (727,938)	\$ (727,938)
Difference between projected and actual earnings, net.....	25,911	-	25,911
Changes in assumptions.....	<u>1,796,738</u>	<u>(166,257)</u>	<u>1,630,481</u>
Total deferred outflows/(inflows) of resources.....	<u>\$ 1,822,649</u>	<u>\$ (894,195)</u>	<u>\$ 928,454</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:

2021.....	\$ 44,542
2022.....	42,714
2023.....	485,732
2024.....	<u>355,466</u>
Total deferred outflows/(inflows) of resources.....	<u>\$ 928,454</u>

*Changes of Assumptions*

- The discount rate was decreased from 5.85% as of June 30, 2019, to 5.32% as of June 30, 2020.
- This valuation includes the repeal of the excise tax on high cost health plans, which was effective December 20, 2019.

*Changes in Plan Provisions – None.*

**NOTE 14 – COMMITMENTS AND CONTINGENCIES**

The regional vocational school, Cape Cod Technical Regional High School, received permission to construct a new high school on its existing campus in Harwich as approved in a district wide vote passed on October 24, 2017. The estimated cost of the project is \$127 million and the Massachusetts School Building Authority (MSBA) is estimated to reimburse 51% of eligible project costs up to a maximum of \$46,292,000. Harwich represents approximately 9% of the student enrollment in the regional school. The estimated annual budget impact to the Town is \$500,000 annually for 25 years.

The Town participates in a number of federal award programs. Although the grant programs have been audited in accordance with the provisions of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* through June 30, 2020, these

programs are still subject to financial and compliance audits. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although it is expected such amounts, if any, to be immaterial.

Various legal actions and claims are pending. Litigation is subject to many uncertainties, and the outcome of individual litigated matters is not always predictable. Although the amount of liability, if any, at June 30, 2020, cannot be ascertained, management believes any resulting liability should not materially affect the financial position at June 30, 2020.

The general fund has various commitments for goods and services related to articles and encumbrances totaling \$2,017,239 and \$127,720, respectively.

#### **NOTE 15 – NATURAL DISASTERS**

A category EF-1 tornado touched down in the Town in July of 2019, causing widespread damage, downed trees, and power outages. A state of emergency was declared, and the Town received state relief totaling \$1.2 million. The tornado relief and associated expenses are reported as extraordinary items.

#### **NOTE 16 – COVID-19**

On March 10, 2020, the Massachusetts Governor declared a state of emergency in response to the coronavirus outbreak. The World Health Organization officially declared the novel Coronavirus (COVID-19) a pandemic the following day. In an attempt to slow the spread of COVID-19, governments issued various stay at home orders that caused global economic shutdowns and substantial financial market impact. Starting in March 2020, the Governor continued to issue orders allowing governments to operate and carry out essential functions safely. These included modifying the state's Open Meeting Law, issuing a stay-at-home order, and introducing a phased approach to reopening State businesses. The Town is considered an essential business and although it was closed to the public for a period of time, departments remained operational and most employees continued to perform their daily duties. A number of businesses have been forced to stop or significantly reduce operations decreasing the Town's portion of certain revenue. The Town has also incurred unanticipated costs specifically related to the pandemic.

On March 27, 2020, the United States Federal Government established the Coronavirus Aid, Relief and Economic Security (CARES) Act in response to the economic downfall caused by the COVID-19 pandemic. This Act requires that the payment from these funds be used only to cover expenses that; are necessary expenditures incurred due to the public health emergency with respect COVID-19; were not accounted for in the budget most recently approved as of March 27, 2020; and were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Commonwealth and communities throughout the Commonwealth were awarded a portion of this federal funding. In addition to funding from the CARES Act, there are several other federal and state grants available.

The full extent of the financial impact cannot be determined as of the date of the financial statements.

#### **NOTE 17 – SUBSEQUENT EVENTS**

Management has evaluated subsequent events through December 28, 2020, which is the date the financial statements were available to be issued.

**NOTE 18 – RESTATEMENT OF NET POSITION PREVIOUSLY REPORTED**

Beginning net position of the governmental activities and the water enterprise funds within the business-type activities have been restated as management has determined that it would be preferable to use the respective year end measurement dates for GASB Statement #75 to coincide with similar information reported for GASB Statement #74. Accordingly, the beginning net position was updated to bring the measurement date from June 30, 2018, to June 30, 2019. The cumulative effect of the revision and the restatement is as follows:

	Previously Reported Balances	Restated for update of OPEB measurement date	Restated Balances
<b>Government-Wide Financial Statements</b>			
Governmental activities.....	\$ 21,180,869	\$ (2,355,337)	\$ 18,825,532
Business-type activities.....	10,726,382	(168,703)	10,557,679
Total.....	<u>\$ 31,907,251</u>	<u>\$ (2,524,040)</u>	<u>\$ 29,383,211</u>
<b>Business-type Activities - Enterprise Funds</b>			
Water Enterprise Fund.....	<u>\$ 10,656,382</u>	<u>\$ (168,703)</u>	<u>\$ 10,487,679</u>

**NOTE 19 – IMPLEMENTATION OF NEW GASB PRONOUNCEMENTS**

During 2020, the following GASB pronouncement was implemented:

- GASB Statement #95, Postponement of the Effective Dates of Certain Authoritative Guidance. This pronouncement postponed the effective dates of certain provisions in GASB Statements and Implementation Guides that first became effective or are scheduled to be effective for periods beginning after June 15, 2018 or later.

The following GASB pronouncements will be implemented in the future:

- The GASB issued Statement #84, Fiduciary Activities, which is required to be implemented in 2021.
- The GASB issued Statement #87, Leases, which is required to be implemented in 2022.
- The GASB issued Statement #89, Accounting for Interest Cost Incurred before the End of a Construction Period, which is required to be implemented in 2022.
- The GASB issued Statement #90, Majority Equity Interests – an amendment of GASB Statements #14 and #61, which is required to be implemented in 2021.
- The GASB issued Statement #91, Conduit Debt Obligations, which is required to be implemented in 2023.
- The GASB issued Statement #92, Omnibus 2020, which is required to be implemented in 2022.
- The GASB issued Statement #93, Replacement of Interbank Offered Rates, which is required to be implemented in 2022.

- The GASB issued Statement #94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, which is required to be implemented in 2023.
- The GASB issued Statement #96, *Subscription-Based Information Technology Arrangements*, which is required to be implemented in 2023.
- The GASB issued Statement #97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*, in which certain paragraphs are required to be implemented in 2021 and 2022.

Management is currently assessing the impact the implementation of these pronouncements will have on the basic financial statement.

This page left intentionally blank.

# ***Required Supplementary Information***

# *General Fund*

## *Budgetary Comparison Schedule*

The General Fund is the general operating fund of the Town. It is used to account for all the financial resources, except those required to be accounted for in another fund.

# *Community Preservation Fund Budgetary Comparison Schedule*

The Community Preservation Fund is a special revenue fund used to account for the acquisition, creation, preservation, or rehabilitation of areas of open space, historic preservation, affordable housing, and recreation. Funding is provided primarily by a property tax surcharge of up to 3%, along with matching state funds.

**COMMUNITY PRESERVATION FUND**

# *Pension Plan Schedules*

The Schedule of the Town's Proportionate Share of the Net Pension Liability presents multi-year trend information on the Town's net pension liability and related ratios.

The Schedule of the Town's Contributions presents multi-year trend information on the Town's required and actual contributions to the pension plan and related ratios.

These schedules are intended to present information for ten years. Until a ten-year trend is compiled, information is presented for those years for which information is available.

**SCHEDULE OF THE TOWN'S PROPORTIONATE SHARE  
OF THE NET PENSION LIABILITY  
BARNSTABLE COUNTY RETIREMENT ASSOCIATION**

Year	Proportion of the net pension liability (asset)	Proportionate share of the net pension liability (asset)	Covered payroll	Net pension liability as a percentage of covered payroll	Plan fiduciary net position as a percentage of the total pension liability
December 31, 2019.....	4.575%	\$ 34,371,684	\$ 14,070,455	244.28%	62.34%
December 31, 2018.....	4.397%	34,751,878	13,053,024	266.24%	57.63%
December 31, 2017.....	4.493%	30,570,977	12,788,137	239.06%	61.86%
December 31, 2016.....	4.461%	31,340,183	12,620,687	248.32%	57.28%
December 31, 2015.....	4.228%	26,622,943	11,725,015	227.06%	58.10%
December 31, 2014.....	4.258%	24,040,696	11,169,369	215.24%	60.43%

Note: this schedule is intended to present information for 10 years.  
Until a 10-year trend is compiled, information is presented for those years for which information is available.

See notes to required supplementary information.

**SCHEDULE OF THE TOWN'S CONTRIBUTIONS**  
**BARNSTABLE COUNTY RETIREMENT ASSOCIATION**

Year	Actuarially determined contribution	Contributions in relation to the actuarially determined contribution	Contribution deficiency (excess)	Covered payroll	Contributions as a percentage of covered payroll
June 30, 2020.....	\$ 3,012,208	\$ (3,024,763)	\$ (12,555)	\$ 14,211,160	21.28%
June 30, 2019.....	2,763,836	(2,763,836)	-	13,183,554	20.96%
June 30, 2018.....	2,681,194	(2,681,194)	-	12,916,018	20.76%

**NOTE A – BUDGETARY BASIS OF ACCOUNTING****A. Budgetary Information**

Municipal Law requires the Town to adopt a balanced budget that is approved at the Annual Town Meeting. The Town Administrator presents an annual budget to the Board of Selectmen and Finance Committee, which includes estimates of revenues and other financing sources and recommendations of expenditures and other financing uses. Expenditures are budgeted by categories that are broken down by personal services, expenses, debt service and capital outlay and are mandated by Municipal Law.

Supplementary appropriations are voted at special town meetings.

The majority of appropriations are non-continuing which lapse at the end of each year. Others are continuing appropriations for which the governing body has authorized that an unspent balance from a prior year be carried forward and made available for spending in the current year. These carry forwards are included as part of the subsequent year's original budget.

Generally, expenditures may not exceed the legal level of spending (salaries, expenses and capital) authorized for an appropriation account. However, the payment of debt service is statutorily required, regardless of whether such amounts are appropriated. Additionally, expenditures for disasters, natural or otherwise, and final judgments may exceed the level of spending authorized.

The Town adopts an annual budget for the General Fund in conformity with the guidelines described above. The original 2020 approved budget for the General Fund includes \$71.9 million in current year appropriations and other amounts to be raised and \$1.2 million in encumbrances and appropriations carried over from previous years. During 2020, the Town approved various transfers within appropriation lines in the General Fund along with supplemental appropriations totaling \$845,000.

The Town adopts an annual budget for the Community Preservation Fund with the guidelines described above, based on recommendations from the Community Preservation Committee. The Community Preservation Fund is a special revenue fund used to account for the acquisition, creation, preservation, or rehabilitation of areas of open space, historic preservation, affordable housing and recreation. Funding is provided primarily by a property tax surcharge of up to 3%, along with matching state funds.

The Accounting office has the responsibility to ensure that budgetary control is maintained on an individual line item appropriation account basis. Budgetary control is exercised through the Town's accounting system.

**B. Budgetary - GAAP Reconciliation**

For budgetary financial reporting purposes, the Uniform Municipal Accounting System basis of accounting (established by the Commonwealth) is followed, which differs from the GAAP basis of accounting. The reconciliations of budgetary-basis to GAAP-basis results for the General Fund and the Community Preservation Fund for the year ended June 30, 2020, are presented on the following page.

*General Fund:*

Net change in fund balance - budgetary basis.....	\$ 1,438,884
<u>Perspective differences:</u>	
Activity of the stabilization fund recorded in the general fund for GAAP.....	794,275
<u>Basis of accounting differences:</u>	
Net change in recording 60 day receipts.....	100,352
Net change in fund balance - GAAP basis.....	\$ 2,333,511

*Community Preservation Fund:*

Net change in fund balance - budgetary basis.....	\$ 80,620
Net change in fund balance - GAAP basis.....	\$ 80,620

C. Appropriation Deficits

Expenditures exceeded appropriations for administration expenditures, unemployment compensation, and state and county charges. The Town will raise these fund deficits in the subsequent fiscal year.

**NOTE B – PENSION PLAN**

***Pension Plan Schedules***

A. Schedule of the Town’s Proportionate Share of the Net Pension Liability

The Schedule of the Town’s Proportionate Share of the Net Pension Liability details the allocated percentage of the net pension liability, the proportionate share of the net pension liability, and the covered employee payroll. It also demonstrates the net position as a percentage of the pension liability and the net pension liability as a percentage of covered payroll.

B. Schedule of the Town’s Contributions

Governmental employers are required to pay an annual appropriation as established by PERAC. The appropriation includes the amounts to pay the pension portion of each member’s retirement allowance, an amount to amortize the actuarially determined unfunded liability to zero in accordance with the system’s funding schedule, and additional appropriations in accordance with adopted early retirement incentive programs. The appropriations are payable on July 1 and January 1. The Town may choose to pay the entire appropriation in July at a discounted rate. Accordingly, actual contributions may be less than the “total appropriation”. The pension fund appropriation is allocated to the Town based on covered payroll.

C. Changes in Assumptions

- The net investment return assumption was lowered from 7.375% to 7.15%.
- The administrative expense assumption was changed from \$1,500,000 to \$1,850,000.

D. Changes in Plan Provisions

None.

**NOTE C – OTHER POSTEMPLOYMENT BENEFITS PLAN**

The Town administers a single-employer defined benefit healthcare plan (“Plan”). The plan provides lifetime healthcare insurance for eligible retirees and their spouses through the Town’s group health insurance plan, which covers both active and retired members. Additionally, retired teachers and their spouses receive health insurance through the Group Insurance Commission of the Commonwealth of Massachusetts (GIC). Each participating municipality is assessed for the governmental share of health and life insurance premiums paid on behalf of its teacher retirees by the state.

**The Other Postemployment Benefit Plan**

A. Schedule of Changes in the Town’s Net Other Postemployment Benefit Liability and Related Ratios

The Schedule of Changes in the Town’s Net Other Postemployment Benefit Liability and Related Ratios presents multi-year trend information on changes in the Plan’s total OPEB liability, changes in the Plan’s net position, and ending net OPEB liability. It also demonstrates the Plan’s net position as a percentage of the total liability and the Plan’s net other postemployment benefit liability as a percentage of covered employee payroll.

B. Schedule of the Town’s Contributions

The Schedule of the Town’s Contributions includes the Town’s annual required contribution to the Plan, along with the contribution made in relation to the actuarially determined contribution and the covered employee payroll. The Town is not required to fully fund this contribution. It also demonstrates the contributions as a percentage of covered employee payroll. Methods and assumptions used to determine contribution rates are presented below:

Valuation date.....	June 30, 2018
Actuarial cost method.....	Entry age normal - level percentage of payroll.
Inflation rate.....	3.25%
Discount rate.....	5.32% as of June 30, 2020 and 5.85% as of June 30, 2019.
Investment rate of return.....	7.00%
Salary increases.....	Service-related increases for Group 1 (excluding Teachers) and Group 2 employees: 6.0% decreasing over 11 years to an ultimate level of 4.0%. Service-related increases for Group 4 employees: 7.0% decreasing over 8 years to an ultimate level of 4.5%. Service-related increases for Teachers: 7.5% decreasing over 20 years to an ultimate level of 4.0%.

## Health care trend rates:

CCMHG.....	Non-Medicare: 0% for 1 year, then 7.0% decreasing by 0.25% each year to an ultimate level of 4.5% per year. Medicare: 7.25% decreasing by 0.25% each year to an ultimate level of 4.5% per year.
GIC.....	8.0% decreasing by 0.5% for 5 years, then by 0.25% for 2 years to an ultimate level of 5.0% per year.
Part B.....	4.50%
Contributions.....	Retiree contributions are expected to increase with respective trends shown above.

## Mortality rates:

Preretirement mortality rates.....	Healthy Non-Teachers: RP-2014 Blue Collar Employee Mortality Table projected generationally with Scale MP-2017. Healthy Teachers: RP-2014 White Collar Employee Mortality Table projected generationally with Scale MP-2016.
Postretirement mortality rates.....	Healthy Non-Teachers: RP-2014 Blue Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2017. Healthy Teachers: RP-2014 White Collar Annuitant Mortality Table projected generationally with Scale MP-2016. Disabled Non-Teachers: RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward one year projected generationally with Scale MP-2017. Disabled Teachers: RP-2014 Healthy Annuitant Table set forward 4 years and projected generationally with Scale BB2D from 2014.

C. Schedule of Investment Returns

The Schedule of Investment Returns includes the money-weighted investment return on the Plan's other postemployment assets, net of investment expense.

D. Changes of Assumptions

- The discount rate was decreased from 5.85% as of June 30, 2019, to 5.32% as of June 30, 2020.
- This valuation includes the repeal of the excise tax on high cost health plans, which was effective December 20, 2019.

E. Changes in Plan Provisions

None.

# ***Other Supplementary Information***

# ***Combining Fund Statements***

The combining and individual fund financial statements provide a more detailed view of the “Basic Financial Statements” presented in the preceding subsection.

Combining statements are presented when there are more than one fund of a given fund type.

# ***Nonmajor Governmental Funds***

## Fund Description

### ***Special Revenue Funds***

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than permanent funds or capital project funds) that are restricted by law or administrative action to expenditures for specific purposes. The Town's grouping for nonmajor special revenue funds is as described as follows:

- ***Federal Grants*** – accounts for activity specifically financed by federal grants, which are designated for specific programs.
- ***State Grants*** – accounts for activity specifically financed by state grants, which are designated for specific programs.
- ***Local Gifts and Grants*** – accounts for various gifts and grants restricted for special programs administered by Town departments.
- ***Highway Improvement Grants*** – accounts for costs incurred with the construction and reconstruction of Town owned roadways. Costs charged to the fund are subject to reimbursement by the Commonwealth of Massachusetts.
- ***Revolving*** – accounts for self-supporting programs and activities.
- ***Receipts Reserved for Appropriation*** – accounts for specific revenue sources that must be appropriated to be used for their individual purpose.
- ***Other Special Revenue*** – accounts for other small special revenue funds which are not categorized within any of the other funds.
- ***Special Revenue Trust Funds*** – accounts for statutory trust accounts that may be spent to support the government.

### ***Capital Projects Funds***

Capital Projects Funds are used to account for financial resources to be used for the acquisition, construction or improvement of major capital assets (other than those financed by enterprise funds). Such resources are derived principally from proceeds of general obligation bonds and grants. The Town's grouping for nonmajor capital project funds is as described as follows:

- ***Wychmere Pier*** – accounts for the renovation to Wychmere Pier.
- ***Squatucket Harbor*** – accounts for the construction of a new harbormaster's office, maintenance building, boardwalk, and parking lot expansion at Squatucket Harbor.

### ***Permanent Funds***

Permanent Funds are used to account for financial resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support governmental programs. The Town's grouping for nonmajor permanent funds is as described as follows:

- ***Library Trust Funds*** – accounts for library contributions and bequests for which only earnings may be expended to benefit the Town's libraries.
- ***Cemetery Trust Funds*** – accounts for cemetery contributions and bequests for which only earnings may be expended to benefit the Town's cemeteries.
- ***Other Trust Funds*** – accounts for various gifts, bequests and contributions held for which only earnings may be expended for purposes specified by the donor in relation to other Town activities.

Cranberry Valley Golf Course

# ***Statistical Section***

This part of the Town of Harwich's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Town's overall financial health.

## ***Financial Trends***

- These schedules contain trend information to help the reader understand how the Town's financial performance and well-being have changed over time.

## ***Revenue Capacity***

- These schedules contain information to help the reader assess the Town's most significant local revenue source, the property tax.

## ***Debt Capacity***

- These schedules present information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.

## ***Demographic and Economic Information***

- These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place.

## ***Operating Information***

- These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and the activities it performs.

SOURCES: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

 All property in the Commonwealth of Massachusetts is assessed at 100% of fair cash value.

Note: Chapter 59, Section 21C of the Massachusetts General Laws, known as "Proposition 2 1/2", imposes 2 separate limits on the annual tax levy of the Town. The primary limitation is that the tax levy cannot exceed 2 1/2 percent of the full and fair cash value. The secondary limitation is that the tax levy cannot exceed the maximum levy limit for the preceding year as determined by the State Commissioner of Revenue by more than 2 1/2 percent, subject to an exception for property added to the tax rolls and for certain substantial valuation increases other than as part of a general revaluation. The secondary limit may be exceeded in any year by a majority vote of the voters, however it cannot exceed the primary limitation.

**Direct and Overlapping Governmental Activities Debt**

**As of June 30, 2020**

<u>Overlapping Entities</u>	<u>Debt Outstanding</u>	<u>Percentage Applicable</u>	<u>Share of Overlapping Debt</u>
Debt repaid with property taxes			
Barnstable County.....	\$ 2,239,087	6.49%	\$ 145,317
Cape Cod Regional Technical High School.....	66,050,000	9.40%	6,208,700
Monomoy Regional School District.....	22,000,000	74.35%	<u>16,357,000</u>
Subtotal, overlapping debt.....			22,711,017
Town direct debt.....			<u>27,242,825</u>
Total direct and overlapping debt.....			<u>\$ 49,953,842</u>

Source: Official Statements

Note: The Town obtains the debt outstanding and percentages directly from Barnstable County.

Note: Overlapping governments are those that coincide, at least in part, with geographic boundaries of the Town. This schedule calculates the portion of the outstanding debt of those overlapping governments that is borne by the taxpayers of Town. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
