EXPLANATION OF TABLE OF AGGREGATES.

This table is to be filled out from figures contained in the assessors' lists, and should represent polls and property actually assessed for taxation, and should include estates which have been exempted from taxation.

The total in Columns One, Two, Three, Six, Seven and Nine should each represent the sum of the figures shown in the same column.

In Column Three the number of persons assessed on property (item g) should be the sum of the items in Column One (item a) and Two (item d).

In Column Four, the number entered should be the sum of the totals in Columns Five and Seven.

In Column Nine, except for such clerical variations as may be caused by fractions, the total of Personal Estate will be the tax on the total of Column Six, the tax on Real Estate will be the tax on the total of Column Seven, and the tax on Polls will be the number in Column Four multiplied by $2.00.
