- A. Minutes
 - 1. April 28, 2021
 - 2. May 6, 2021
 - 3. May 26, 2021

MINUTES

HARWICH WATER DEPARTMENT BOARD OF WATER/WASTEWATER COMMISSIONERS WEDNESDAY, APRIL 28, 2021 1:00 P.M.

WATER COMMISSIONER'S PRESENT: Chair Gary Carreiro, Vice Chair Judith Underwood, Clerk Allin Thompson

OTHERS PRESENT: Superintendent Dan Pelletier, Comptroller Sandra Sieger, Billing Administrator Wellesley Marsh, Secretary Tracey Alves, Russ Kleekamp

CALL TO ORDER

Chair Carreiro called the meeting to order 1:00 p.m.

CONSENT AGENDA

A. Minutes

- 1. March 4, 2021
- 2. March 19, 2021
- 3. April 8, 2021

Clerk Thompson motioned to adopt the consent agenda as presented. Vice Chair Underwood seconded the motion. All in favor; 3-0-0.

OLD/UNFINISHED BUSINESS

A. Water Rules & Regulations

The Board is ready to move forward with the Water Rules and Regulations. Superintendent Pelletier will proceed with advertising for the Public Hearing.

NEW BUSINESS

A. Coastal Resiliency Grant Program

Superintendent Pelletier updated the Board on the Coastal Resiliency Grant Program. Russ Kleekamp of GHD also attended the meeting to join in on the discussion. Superintendent Pelletier provided the Board with some background as to how this came up. With the Capital plan and the pandemic, tight budgets, etc. Russ and Dan were discussing potential funding options for other projects. The capital plan covers major capital infrastructure projects that the Department has to handle but for other projects that should still be considered, other funding opportunities should be explored while budgets are becoming tighter and tighter.

This project on Lothrop Ave is not on the Capital plan but would be a great improvement to Harwich's water system. Russ Kleekamp provided an overview of the scope of work that would be involved in replacing the area of above-grade water main that runs through the salt marsh,

through the estuary and next to the bridge on Lothrop Ave. The Coastal Resiliency Program targets to improve upon vulnerable infrastructure as well as clean up salt marshes. The town would be responsible to come up with a 25% cost match and it is about an \$80,000-90,000 project. It looks like a great opportunity. The first grant application would be for the survey and design work and then a second grant application would need to be done for the construction work.

The Board was in favor of moving forward with pursuing the grant opportunity.

B. Water Restrictions

Superintendent Pelletier informed the Board that the DEP has issued the Cape Cod Basin a Level 1, mild drought declaration. Superintendent Pelletier has been coordinating with every water supplier that draws water from the Monomoy Lens such as Brewster, Dennis, Chatham, Orleans and part of Yarmouth. Each of these towns will be implementing mandatory water restrictions.

Clerk Thompson moved to adopt the odd/even watering schedule as mandatory for the upcoming months. Vice Chair Underwood seconded the motion. All Board members were in favor; 3-0-0.

C. 42 John Joseph Rd

The Board reviewed pictures of fallen trees and brush behind the property 42 John Joseph Rd. The homeowner is seeking the Board's permission to remove the brush and fallen trees, that had fallen behind his land on Water Department property. Two-thirds of the trees were already on the ground.

Clerk Thompson motioned to allow the homeowner to remove the brush and fallen trees. Vice Chair Underwood seconded the motion. All Board members were in favor; 3-0-0.

SUPERINTENDENT'S REPORT

The gas main will need to be extended down to where the generator will be at the sewer pump station on Harden Lane.

Harwich had been negotiating with Chatham with respect to the IMA and the cost sharing for the operation of the treatment plant for Chatham and the Harwich collection system operations. One thing that the IMA didn't clearly identify, was that Harwich 23% cost share for Chatham's contract operations encompassed both their treatment and their collection system. Superintendent Pelletier has requested a breakdown from Weston & Sampson of the \$621,000 that they spend on contract operations to see how much of that was for the treatment plant and how much was for collection operations. Harwich is only supposed to be paying for collection operations. The breakdown is about 60/40 so ultimately there will be a net reduction in the FY22 wastewater budget of about \$50,000.

Superintendent Pelletier received a preliminary draft scope of Harwich's collection system. DEP requires daily inspections of pump stations with design flow of 100,000 gallons or greater per day. Harwich's stations will most likely only pump 80,000 gallons per day. Superintendent Pelletier will seek relief from DEP due to Harwich only generating 80,000 gallons through 4

pump stations daily. This relief could scale back the budget where if they don't provide relief the budget could go up.

Superintendent Pelletier has had several meetings with GHD who oversees Chatham's sewer design. Discussions have started regarding creating a connection between Harwich's SCADA system and Chatham's SCADA system so that Chatham can see and interact with Harwich's sewer pump stations.

The interconnection between Harwich and Chatham's water supply is in a vault on Route 28. Chatham has a lot of shallow wells and are looking to reinforce the interconnection. Superintendent Pelletier relayed that if the connection is opened, depending on who is pumping and who is not the water could go one way or another without a check valve or without a pump in place. One way to ensure water only goes one way would be to pump from hydrant to hydrant. A tow behind pump would be placed in between two hydrants so water could be pumped from Harwich to Chatham if they needed water in an emergency situation.

Regarding the Land Acquisition Grant through DRI funds, KP Law has started their initial due diligence to acquire properties.

The SewerCAD model is currently underway. The next step is to review sewer pump station locations. Superintendent Pelletier would seek the Board's blessing prior to running the model on the 30-35 pump stations.

Regarding the CWMP revisions, talk with GHD has taken place to strategize about that and the plan right now is to have a discussion with MEPA to discuss what we are looking to amend and any requirements that may be associated with those.

The GIS server and ESRI GIS software upgrade is complete and the Elements software program upgrade will next.

On April 15, 2021 Superintendent Pelletier did a community water forum for a sustainable practices group. It was an hour-long presentation about Drinking Water Regulations and the Safe Drinking Water Act. There is a YouTube video available for those interested.

COMMISSIONER'S REPORT

Chair Carreiro asked for confirmation that everyone had completed their Ethics training.

Superintendent Pelletier provided an update on Periwinkle Way.

NEXT MEETING

The next Board meeting will be held on Thursday, May 6, 2021 at 1:30 p.m.

ADJOURNMENT

with a second by Vice Chair Underwood. A	roll call vote was taken, all in favor; 2-0-0.
Gary Carreiro, Chairman	Dan Pelletier, Superintendent
Judith Underwood, Vice Chair	Tracey Alves, Board Secretary
Allin P. Thompson, Clerk	
Noreen Donahue	
John Gough	

MINUTES

HARWICH WATER DEPARTMENT BOARD OF WATER/WASTEWATER COMMISSIONERS THURSDAY, MAY 6, 2021 1:30 P.M.

WATER COMMISSIONER'S PRESENT: Chair Gary Carreiro, Vice Chair Judith Underwood, Clerk Allin Thompson

OTHERS PRESENT: Superintendent Dan Pelletier

CALL TO ORDER

Chair Carreiro called the meeting to order 1:30 p.m.

NEW BUSINESS

A. Town Meeting Articles

Superintendent Pelletier provided the Board with an overview of the town meeting articles. The Water budget, Wastewater budget, Land Acquisition for Protection of Water Supply, New Source Exploration for Water Supply, Route 28 Water Main Replacement Design and Station #8 Generator articles were reviewed.

B. Rules & Regulations Public Hearing Date

The Board set a date of Wednesday, May 26, 2021 to hold the remote Public Hearings for both the Water Rules and Regulations at 1:00 p.m. and the Wastewater Rules and Regulations at 1:30 p.m.

Clerk Thompson motioned to hold a Public Hearing for Water and Wastewater Rules and Regulations on May 26th beginning at 1:00p.m. for Water Regulations and 1:30p.m. for Wastewater Regulations. Vice Chair Underwood seconded the motion. A role call vote was taken with all in favor; 3-0-0.

NEXT MEETING

The next Board meeting will be held on Wednesday, May 12, 2021 at 9:00 a.m.

ADJOURNMENT

Chair Carreiro entertained a motion to adjourn at 2:05p.m. Clerk Thompson moved the motion with a second by Vice Chair Underwood. A roll call vote was taken with all in favor; 3-0-0.

Gary Carreiro, Chairman	Dan Pelletier, Superintendent
Judith Underwood, Vice Chair	Tracey Alves, Board Secretary
Allin P. Thompson, Clerk	
Noreen Donahue	
John Gough	

MINUTES

HARWICH WATER DEPARTMENT BOARD OF WATER/WASTEWATER COMMISSIONERS WEDNESDAY, MAY 26, 2021 1:00 P.M.

WATER COMMISSIONER'S PRESENT: Chair Gary Carreiro, Vice Chair Judith Underwood, Clerk Allin Thompson, Noreen Donahue, John Gough

OTHERS PRESENT: Superintendent Dan Pelletier, Comptroller Sandra Sieger, Billing Administrator Wellesley Marsh

CALL TO ORDER

Chair Carreiro called the meeting to order 1:00 p.m.

WELCOME

A. Newly elected members Noreen Donahue and John Gough

The newly elected Board of Water and Wastewater Commissioners Noreen Donahue and John Gough were welcomed to the Board.

CONSENT AGENDA

A. Minutes

- 1. April 28, 2021
- 2. May 6, 2021

The Minutes of April 28, 2021 and May 6, 2021 were not ready for approval and will be added to the next agenda.

PUBLIC HEARINGS/PRESENTATIONS

A. Discussion and possible vote to approve updates to Water Rules & Regulations-1:00 pm

Chair Carreiro entertained a motion to open the Public Hearing for the Water Rules & Regulations. Vice Chair Underwood moved the motion. A role call vote was taken with all Board members in favor; 5-0-0.

A lot of the work done to the Water Rules and Regulations was clean-up. Irrigation Meters for Sewer customers is a new addition to the Water Rules and Regulations.

Clerk Thompson motioned to adopt the Water Rules and Regulations for the Harwich Water Department on the copy as of May 6, 2021 to take effect July 1, 2021. Clerk Underwood seconded the motion, all in favor; 5-0-0.

Clerk Thompson motioned to close the Public Hearing. Vice Chair Underwood seconded the motion. A vote by role call was taken with all in favor; 5-0-0.

B. Discussion and possible vote to approve updates to Wastewater Rules & Regulations- 1:30 pm

Clerk Carreiro entertained a motion to open the Public Hearing for the Wastewater Rules & Regulations at 1:30 p.m. Clerk Thompson moved the motion with a second by Vice Chair Underwood. A role call vote was taken with all in favor; 5-0-0.

Superintendent Pelletier provided an overview of the entirely new Wastewater Rules & Regulations for the Town of Harwich. Harwich started by adopting the Town of Chatham's Rules & Regulations and then made a few modifications along the way.

The two biggest changes made were the excepting of an Engineer and a registered Sanitarian to do the design for the sewer services and the other big change was extending the hook-up timeline from one year to two years.

NEW BUSINESS

A. Board Reorganization- Discussion and possible vote

The Board would like to hold off until the new fiscal year to reorganize.

B. Capital Plan Review

Superintendent Pelletier provided an overview of the Seven Year Capital Plan.

NEXT MEETING

The next Board meeting will be held on Wednesday, June 9, 2021 at 1:00 p.m.

ADJOURNMENT

Clerk Thompson motioned to adjourn at 2:06 p.m. Vice Chair Underwood moved the motion. A roll call vote was taken with all in favor; 5-0-0.

3. Rates (c) 2018

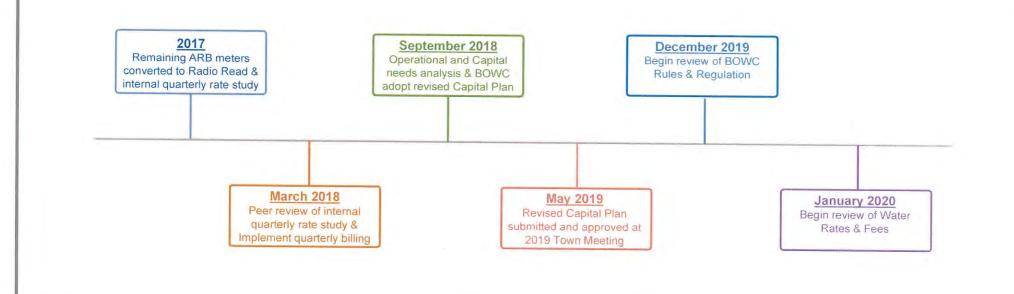

Rate Increase Analysis

August 2020

Introduction & Background

In 2018 the Board of Water Commissioners along with department staff began a comprehensive review of the Departments needs with respect to existing & future infrastructure upgrades, system redundancy, water production and operating expenses. This review prompted significant revisions to the departments Capital Plan which was voted and adopted by the Water Commission in September of 2018. Following the adoption of the new Capital Plan the department completed a thorough analysis of future water use, revenue projections and the Departments ability to fund future operational and capital expenses. The results of this analysis indicate that existing water rates are not sufficient to support department operations and capital needs beyond fiscal year 2021. Upon confirmation that a rate increase will be required the Water Commission has developed 11 unique rate structure scenarios for consideration, the details of which are included in this presentation.

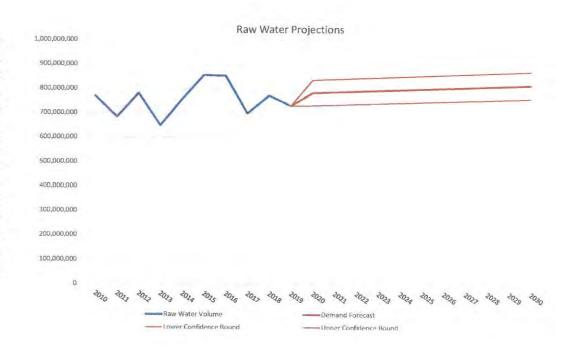

Demand Projection

Raw Water Projections:

Prior to evaluating the effectiveness of each rate increase scenario the department had to establish future demand projections. Raw water projections were forecast using linear regression to establish a line of best fit based on 10 years of historical water production. As can be seen easily on the chart, water production can fluctuate significantly from year-to-year. This is largely due to a corresponding increase or decrease in precipitation. To accommodate for the uncertainty of future weather patterns upper & lower confidence bounds were incorporated into the projections. For the purpose estimating future revenue the lower confidence annual raw water volumes were used for the basis of analysis.

Billed Consumption Projections:

Unfortunately due to treatment plant losses, fire protection, water theft and watermain breaks/leaks raw water projections cannot directly be used for projecting future revenues. To adjust for these losses raw water projections were multiplied by 92.63% which is the 10-year average of billed consumption vs. raw water production.

Demand Projection

Annual Quarterly Allocation:

Due to the seasonal nature of the community, water consumption and revenues vary significantly between quarters within a fiscal year. To accurately distribute annual volumes to the appropriate quarter daily finished water volumes from FY15-FY19 were consolidated to establish a 5-year average quarterly volume as a percentage of annual volume.

Quarterly Tier Allocation:

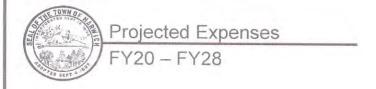

After determining the quarterly allocations these volumes must be further broken down into individual billing tiers to accurately estimate revenues. To accomplish this the department used historic actual data to establish an average % of quarterly usage per tier for each quarter in the fiscal year.

			Usage		
Tier	Q1	Q2	Q3	Q4	Total
1	61,998,945	35,200,670	41,763,030	75,987,925	214,950,570

Alternative K - \$8 Base Rate increase, 3% Tier increase annually

Affordability Analysis

The US EPA recommends evaluating water rates against local benchmarks for household affordability. To accomplish this the annual cost of water in the community is evaluated as a percentage of the Median Household Income and lowest quintile income to determine the level of burden water rates may pose to the customers.

Harwich Stats:

Median Household Income - \$75,352

(https://www.census.gov/quickfacts/fact/table/harwichtownbarnstablecountymassachusetts/INC910218#INC910218)

Lowest Quintile Income- \$29,680

(https://censusreporter.org/data/table/?table=B19080&geo_ids=06000US2500129020&primary_geo_id=06000US2500129020)

Basis for Comparison:

Average Household- 2.15

(https://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?src=CF)

RGPCD-64 Gal

Average Quarterly Water Use- 12,384 Gallons

EPA's stated view on potable water- That it is affordable if it costs less than 2.5% of small community MHI.

Summary

- Of the 11 proposed rate structures 6 have been identified as viable options to sufficiently fund the departments future operational, maintenance and capital needs.
- The 5 proposed rate structures and future water costs have been evaluated for household affordability in line with American Waterworks "Framework for Household Affordability and Financial Capability Assessment in the Water Sector" published in April 2019. The resulting cost increase associated with the 5 proposed rate structures are all identified as "Low Impact" in comparison to Median Household Income and Lowest Quintile Income.

C. Water/Wastewater Superintendent Evaluation

Town of Harwich

Water Department

196 Chatham Road, Harwich, MA 02645 USA | www.harwichwater.com P. 508-432-0304 | F. 888-774-3557 | customerservice@harwichwater.com

MEMORANDUM

TO: Board of Water/Wastewater Commissioners

FROM: Sandra Sieger, Water Comptroller

DATE: June 7, 2021

RE: FY21 Water/Wastewater Superintendent

Superintendent Dan Pelletier's annual anniversary date is upcoming on July 1, 2021. This position falls under the Personnel Bylaw. Dan is currently a Grade MS, Step8; \$126,481 and a single step increase would move him to Step 9; \$129,644.

In preparation for this BOWWC task, I have attached a "draft" evaluation form that includes:

Last Evaluation's Goals (p.1-2, Item A)

- ➤ Goals and Objectives for Following Year (p.4, Item B-10), taken from current the 7-Year Capital Plan for FY22 and FY23
- Cash Turned Back (p.4 Item, C.3) for FY20
- ➤ July-December 2020 Monthly Reports to the BOS (Jan-YTD will follow soon)

The process for that has been followed (more or less) is as follows:

- Employees are provided with the attached feedback form. Once completed, a copy is provided to each member via hard copy and/or e-copy.
- Each Board member completes an individual evaluation form.
- > Superintendent provides completed self-evaluation form to the Board.
- At a schedule meeting, each member provides their verbal evaluation.

 Note: Prior to this meeting, a hard copy for packet distribution is helpful
- ➤ BOWWC evaluations are combined into one evaluation where totals are combined and averaged. Note: Comptroller task
- Combined and signed BOWWC evaluation form and Personnel Action Form for step increase is provided is provided to Town Administrator.
 - Note: Comptroller task

Monthly reports to the BOS

Following the BOWWC June 7, 2021 meeting, a packet of everything mentioned above along with any other documentation that the Board would find helpful for Superintendent evaluation will be provided to each Board member.

Please also note that all of the above only includes Water Department operations. The only Wastewater tasks that are tracked by Water Administration is for calendar events/appointments. You will see these listed on the Monthly Reports to the BOS.

If I can assist further, please do not hesitate to reach out to me.

DEPARTMENT HEAD EVALUATION FORM – Water Department

Name	Daniel Pelletier	Completed By	BOWWC	Department Head Evaluation – Water
Job Title	Water & Wastewater Supt.	Classification	M8	Department Head completes self-evaluation.
Supervisor(s)	Board of Water Commissioners	Current Step	8 (\$126,481)	BOWWC completes individually and then
Department	Water	New Step (if appl.)	9 (\$129,644)	combined evaluation, and both are submitted to
Anniversary D	ate 7/1/21 (hire date 6/1)	Evaluation Date	TBD	the Town Administrator.

Key for Performance Evaluations:

EX	Exceptional	Performance far exceeds expectations due to exceptionally high quality of work performed in all essential areas of responsibility.
EE	Exceeds Expectations	Performance consistently exceeded expectations in all essential areas of responsibility and the quality of work overall was excellent.
ME	Meets Expectations	Performance consistently met expectations in all essential areas of responsibility at times possible exceeding expectations and the quality of work overall was very good.
IN	Improvements Needed	Performance did not consistently meet expectations or performance to meet expectations in one or more essential areas of responsibility.
UN	Unsatisfactory	Performance was consistently below expectations in the most essential areas of responsibility and/or reasonable progress towards critical goals was not made. Significant improvement is needed in one or more important areas.
