**Eric Beebe**  
**Recreation Director**  
**Town of Harwich**  
**Recreation Department**

Mr. Beebe,

The Harwich Athletic Association is excited to learn the Town of Harwich Recreation Department and Recreation Commission are seeking Community Preservation Act (CPA) funding for a retrofit of the light fixtures at Whitehouse Field in 2020. The aging field lighting system at Whitehouse Field is in dire need of an update and we would like to assist in the funding of this potential project in 2020.

The Harwich Athletic Association is committed to seeing this project come to fruition, our Board of Directors and many volunteers understand the need for properly working and efficient lights for the playing surface. The Harwich Mariners will commit a \$75,000.00 contribution towards the field lighting project at Whitehouse Field, if the CPA should select the project for its 2020 fiscal year funding.

Thank You and the Harwich Recreation Commission for your continued support of Whitehouse Field. Whitehouse Field is enjoyed and loved by thousands each year and we will continue to help keep the facility safe and user friendly however we can.
