Conservation Commission, Red River Beach Shoreline Stabilization Project, 2019 Article #45, Harwich  
Conservation Agent Amy Usowski

Red River Beach Stabilization Project - the Conservation Commission granted an emergency certification for the temporary fix that is there now - cement blocks with seaweed and beach sand behind it. Work was done in house at no expense. I have a concept for a modified plan from what Conservation and CPC originally approved, but I need assistance from Engineering.

Waiting on engineering to be able to assist with plans.
