RE: Request for Departmental Input

Case #2022-15

I have reviewed the request to amend a previously approved Special Permit application to add a pergola/trellis over an existing patio at Snow Inn Road, Unit 12.

The septic system is regulated through the Department of Environmental Protection with a groundwater discharge permit. I recommend referral to the DEP to ensure the changes are within the scope of the wastewater system and do not require additional inspections.

Should you require further information, please do not hesitate to contact me.
