RE: Request for Departmental Input

Case #2022-21

I have reviewed the request to amend the Special Permit proposal to change, extend, and alter a pre-existing nonconforming site condition by reconfiguring the parking lot and ADA parking location at 129 Route 137. The current septic components are H2O loading and the property will be sewer, the Health Department has no issue with the proposed changes.

Should you require further information, please do not hesitate to contact me..
