RE: Request for Departmental Input

Case #2022-23

I have reviewed the Special Permit request to renovate the earner portion of a non-conforming, single family dwelling at 5 Trinity Cove. The septic system was installed in 1994 and was designed for 4 bedrooms, it passed a title five inspection in July 2020. The applicant has submitted a three bedroom floor plan, the Health Department has no issue with the project as proposed.

Should you require further information, please do not hesitate to contact me.
