RE: Request for Departmental Input

Case #2022-27

I have reviewed the application for a Special Permit to construct an addition and retaining wall on a pre-existing, non-conforming single family dwelling at 45 Christopher Way, Harwich. The proposed project meets setbacks to the current septic system, the septic system just passed a Title Five Inspection in August of 2013 it was designed for (3) three bedrooms.

A complete floor plan of the entire dwelling must be submitted with the Building Permit Application in order for the Health Department to determine bedroom count for final approval of the proposed project.

Should you require further information, please do not hesitate to contact me.
