RE: Request for Departmental Input

Case #2022-30

I have reviewed the application for a variance for minimum lot size and minimum frontage at 32 Deer Run. The property is located in a Map Zone II and has a deed restriction for a two bedroom dwelling. The proposed septic design and floor plan are in compliance with this restriction. There can be no increase in the bedroom count at this time without the inclusion of nitrogen land credit within the same zone of contribution.

Should you require further information, please do not hesitate to contact me.
