RE: Request for Departmental Input

Case #2023-04

I have reviewed the application for a special permit to raze and replace the existing non-conforming dwelling at 61 Shore Drive. A complete application for a fully compliant septic system will be required prior to sign-off of any building permit. The family suite meets the definition of a bedroom therefore, the system will need to accommodate 5 bedrooms. The family suite shall not increase the kitchenette to a full kitchen without a two-compartment tank or two tanks in series.

Should you require further information, please do not hesitate to contact me.

From: Amy Usowski, Conservation Administrator

RE: Comments for March 29, 2023 ZBA meeting

1. Case No. 2023-4 James C. & Tracy M. Fish, 61 Shore Road-
The Harwich Conservation Commission approved this application to raze and replace a single family dwelling under the Massachusetts Wetlands Protection Act and Harwich Wetlands Protection Bylaw with permit #SE32-2517. All conditions need to be abided by.
2. Case No. 2023-5 Round Cove Resort Owner, 2173 Route 28, 4 Cove Landing Road-
The Harwich Conservation Commission approved this application to raze and replace 3 buildings under the Massachusetts Wetlands Protection Act and Harwich Wetlands Protection Bylaw with permit #SE32-2521. All conditions to be abided by.
3. Case No. 2023-6 Richard S. Tupper, 1 Shore Drive –
The Harwich Conservation Commission approved this application to add a porch and rear deck under the Massachusetts Wetlands Protection Act and Harwich Wetlands Protection Bylaw with permit #SE32-2506.
4. Case No. 2023-7 Paula M. Delory, 2 Andrews River Road-
Upon inspection of the property by the Conservation department, it appears there is far more work going on than just conversion of a garage to habitable space. The interior of the structure has been brought down to the studs. The owner has been told that if the amount of work exceeds 50% of the assessed or appraised (if they have an appraisal) value of the dwelling, that the whole structure will need to come up to FEMA Flood Compliance, as this property is well within the flood zone AE 11'. House is currently at approximately elevation 6'. House is within the 100' wetland buffer zone, 200' Riverfront Area, and Flood Zone – all regulatable areas of the Conservation Commission. Any changes to footprint of structure or work to the foundation will require formal application to the Conservation Commission. See photos below. Back door was wide open.
