**Subject:** 86 Miles Street Objection.

Chairman Berry and Shelagh Delaney,

We continue to object to the “new” plan that is proposed for 86 Miles Street. The changes are insignificant as compared to the original proposal. The proposed dwelling with associated rear access will have a negative impact on the safety, character and the quietude of the neighborhood. This has been a long process and appreciate your full consideration for our consistent response not to approve the expansion as requested for 86 Miles Street.

Regards,

Elizabeth and Dan Sytsma
