Good Morning, Elaine!

In response to one of Attorney Senie's comments about the proposed Natural State Areas on 4 of the 5 building lots, we have incorporated language addressing this into our draft Declaration of Protective Covenants as Paragraph 13. I've attached this document for the Planning Board's review. Please let me know if you need hard copies submitted and I'll have those dropped off asap.

When the Planning Board remote meeting link is available, can you please forward it to me?

Thanks very much!

Susan
