Re: Water and Sewer installation, Elijah's Woods

Dear Board Members:

I have been inspecting the progress of the installation of water and sewer utilities at the above referenced subdivision project. Also I inspected the installment of the binder course of asphalt. To date the following items have been constructed in accordance with the approved plans and attached pictures

- Municipal Water
- Municipal Sewer
- Binder Course of asphalt

Should you have any questions please contact me.

Sincerely yours,

Bel Inspection Services Inc.

Brian Celia, Construction Inspector

QTY Today 24.00 Ton
672.48 Loads 27

Inspection Date 12/30/2021

Paving Bills of Lading

The measured area of pavement is 41,400 square feet. Based upon asphalt density of 145 lbs/cf, the thickness is calculated as follow:

$$1 \text{ cf}/145 \text{ lbs} \times 674.28 \text{ tons} \times 2,000 \text{ lbs/ton} \div 41,400 \text{ sf} = 0.225 \text{ ft. or } 2.69 \text{ in.}$$

The approved plan required only 2 1/2 in. of binder.
