Re: Road Construction, Strawberry Hill (a.k.a. Elishia Wood)

Dear Board Members:

I have been routinely inspecting the progress of road construction and stormwater management structures at the above referenced subdivision project. To date the following items have been constructed in accordance with the approved plans and attached pictures:

- Grubbing, clearing and excavation to subbase elevation
- Stormwater Controls (Catch Basins and Infiltration Pits)

Should you have any questions please contact me.

Sincerely yours,

Clark Engineering LLC

David A. Clark, P.E.
