RE: Request for Departmental Input

---

## Case #2022-19

I have reviewed the application for a Special Permit to raze and replace the detached garage at 25 Cross Street. The septic system was installed in 2007, inspected in 2019, and is designed to accommodate 5 bedrooms maximum. All of our records indicate that there are 5 existing bedrooms in the main dwelling, and the proposed office would be considered #6.

In order for the Health Department to approve a building permit, either a fully compliant 6 bedroom septic system needs to be installed, or a bedroom in the main dwelling needs to be eliminated.

Should you require further information, please do not hesitate to contact me.
