RE: Request for Departmental Input

---

**Case #2024-01**

I have reviewed the application for a special permit to raze and replace a pre-existing non-conforming garage and build an ADU at 16 Braddock Street. A licensed septic installer must apply for a septic permit prior to any building signoff. The Septic design must be fully compliant and include a two-compartment tank or two-tanks in series. A complete floor plan of the ADU and Main house will need to be submitted with the septic permit.

Should you require further information, please do not hesitate to contact me.
