RE: Request for Departmental Input

Case #2023.37

I have reviewed the application for a special permit for an addition and alterations to the non-conforming structures located at 78 Lovers Lane. The project will require a fully complaint septic system be installed and the office must be <70 sq. ft or not afford privacy to not be considered a bedroom. Further, a complete septic application will be required prior to building permit sign-off.

Should you require further information, please do not hesitate to contact me.
