---

To the Planning Board,

My main concern with the new development is the traffic congestion and the noise.

If you have ever tried to cross the street at the intersection of Bank Street and Route 28 you will understand my concern.

It is very dangerous trying to cross the street during the day and evening hours. I read the traffic report, wondering if it was conducted in July or August?

Often times we hear the noise from Perks and The Port on the weekends from patrons that have had too much to drink. Harwich Port is now known as the place "to party" from the surrounding towns. Is this the reputation we want?

I enjoy the new restaurants and the lively atmosphere in the town, but unfortunately, at times it is out of control. I worry about additional crowds, noise and unruly behavior adding another restaurant to the area.
