

**Waiver Request for Submitting Drainage Calculations
and Stormwater Runoff Information**

PB 2023-25 – Harwich Fire Association, Inc. – 203 Bank Street

The Petitioner requests a waiver for submitting drainage calculations and stormwater runoff information on the plan of the Cold Brook Gateway Parking and Trailhead Design – Bank Street in Harwich , MA submitted with the Planning Board Application by BSC Group for Harwich Conservation Trust dated February 24, 2023 based on the following:

1. The amount of hardscape on the project site will be decreasing from the amount that currently exists on said site.
2. The footprint of the building is not increasing or expanding.
3. The amount of asphalt on site will be decreased to be used primarily in front of the three “bays” on front of the existing building. Permeable materials such as t-base will be used for additional parking. Grass and natural vegetation will be used for handicap trails beginning at the parking area.
