RE: Request for Departmental Input

Case #2024-08

I have reviewed the application for a Special Permit to raze and rebuild a single-family dwelling at 708 Main Street. The office must be less than 70 square feet for it not to be considered a bedroom. The playroom in basement requires pass through to access mechanical room therefore it does not meet the definition of a bedroom and shall not be used for sleeping. A licensed septic installer must apply for the permit to relocate the tank.

Should you require further information, please do not hesitate to contact me.
