

Other Speed Control Measures...

INTERSECTION JIGGLE BUMPS
Dayton, OH - These use a narrow strip of bumps to alert motorists approaching an intersection

HAMMERHEAD
Beaverton, OR - This oddly shaped island fills space to help organize a large, irregularly shaped intersection

ANGLE POINT
Bellevue, WA - This variant of a Chicane implements one-lane operation, much like in a one-lane Choker

LATERAL SHIFT
West Palm Beach, FL - This measure is like a Chicane that deviates once without returning to the original centerline

SPLIT MEDIAN
Portland, OR - This measure comprises two Center Island Narrowings located on either side of an intersection.

MEDIAN CHOKER
San Jose, CA - This measure combines a Choker and a Center Island Narrowing at the same location
