### Other Speed Control Measures...

#### **STAR DIVERTER**

**Seattle, WA** - Similar to a [Diagonal Diverter](#), this intersection island channelizes movements so that only right-turns are permitted at each approach.

#### **ONE WAY - TWO WAY**

**Boulder, CO** - This variant of a [forced turn island](#) restricts movements as the through street changes from a two-way street to a one-way street

#### **TRUNCATED DIAGONAL DIVERTER**

**Seattle, WA** - This variant of a [Diagonal Diverter](#) includes a gap at one end of the island to allow an additional right-turn movement.

#### **ONE WAY - TWO WAY**

**Montgomery County, MD** - This measure is like a [Chicane](#) that deviates once without returning to the original centerline
